### 1.0 INTRODUCTION

The Child Support Enforcement Program of the Department of Children and Family Services and the Louisiana District Attorneys Association--in consultation with the Child Support Review Committee ("Committee")--are pleased to submit to the Legislature this report regarding the current child support Guidelines and recommendations for improvement.

### 1.1 COMMITTEE MEMBERS

| Prof. Andrea Carroll <br> Associate Dean for Student and Academic <br> Affairs | Louisiana State Law Institute Marriage and <br> Persons Advisory Committee. |
| :---: | :---: |
| LSU Paul M. Hebert Law Center |  |
| Representative Raymond E. Garofalo, Jr. | House Committee on Civil Law and |
| House District 103 | Procedure |
| Senator Rick Ward, III |  |
| Senate District 17 | Senate Committee on Judiciary A |
| Judge Patricia Koch |  |
| Division E |  |
| 9th Judicial District Court | Louisiana District Judges Association |
| Mr. F. Steve Landreneau, Esq. |  |
| Assistant District Attorney |  |
| 36th Judicial District | Louisiana District Attorneys Association |
| Judge Guy Bradberry |  |
| Division C | Juvenile and Family Court Judges |
| Association |  |

### 2.0 HISTORY AND PURPOSE

Ironically, the states' child support enforcement programs and federal public welfare programs evolved together. ${ }^{1}$ After all, "[t]he whole subject of the domestic relations of husband and wife, parent and child, belongs to the laws of the states, and not to the laws of the United States." ${ }^{2}$ A state's interests in domestic relations may "be overridden by the federal courts only where clear and substantial interests of the National Government, which cannot be served consistently with respect for such state interests, will suffer major damage if the state law is applied." ${ }^{3}$

Nevertheless, the parallel advancement of both is linked to Congress' authority to tax and spend. ${ }^{4}$
This grant gives the Federal Government considerable influence even in areas where it cannot directly regulate. The Federal Government may enact a tax on an activity that it cannot authorize, forbid, or otherwise control. And in exercising its spending power, Congress may offer funds to the States, and may condition those offers on compliance with specified conditions. These offers may well induce the States to adopt policies that the Federal Government itself could not impose. ${ }^{5}$
"[L]egislation enacted pursuant to the spending power is much in the nature of a contract: in return for federal funds, the States agree to comply with federally imposed conditions." "When money is spent to promote the general welfare, the concept of welfare or the opposite is shaped by Congress, not the states." ${ }^{7}$

Congress created the Aid to Families with Dependent Children ("AFDC") program in 1962.8 "Few mandatory federal eligibility requirements were imposed in the early decades of the program and states retained major responsibility for the design and administration of the AFDC program." ${ }^{9}$ Nevertheless, federal courts regularly defeated states' attempts to limit access to public assistance funds. ${ }^{10}$

[^0]" A ] significant number of states at the time were actually losing money on efforts to collect child support for children in the AFDC program."11 Loose eligibility requirements and shifting family dynamics during the 1960s and 1970s also led to a dramatic increase in costs. ${ }^{12}$ As a result, Congress passed the Social Security Act Amendment of 1974. ${ }^{13}$ "Part B enacted Title IV-D of the Social Security Act, which created the Program for Child Support Enforcement and Establishment of Paternity." ${ }^{14}$
"Originally, the federal Child Support Enforcement program began with a principal focus on welfare 'cost recovery,' i.e., families receiving cash assistance were required to assign their child support collection rights to government, and most child support recovered was used to reimburse government for public assistance costs." ${ }^{15}$ However, parents who were not receiving welfare could apply for services. ${ }^{16}$
e.g., King v. Smith, 392 U.S. 309 (1968). See, e.g., Taylor v. Martin, 330 F. Supp. 85 (N.D. Cal.) aff'd sub nom. Carleson v. Taylor, 404 U.S. 980 (1971).

12 The predecessor to the AFDC program was known as the Aid to Families with Children ("AFC") program. See Pub. L. No. 74-271, 49 Stat. 620 (Aug. 14, 1935). "The [AFC] program was designed to provide support for 'dependent' children who were not being properly supported by their parents. At the time the program was created, $42 \%$ of the children were eligible for benefits because of death of a parent. By 1949, however, the cost of benefits was estimated to be $\$ 205$ million to aid families where the father was alive but not in the family and not paying support." Linda Henry Elrod, The Federalization of the Child Support Guidelines, 6 J. Am. Acad. Matrim. Law. 103, 109 (1990). According to a 1974 Congressional report, "[o]f the 11 million recipients ... receiving Aid to Families With Dependent Children (AFDC), 4 out of every 5 [were] on the rolls because they have been deprived of the support of a parent who has absented himself from the home." 1974 U.S.C.C.A.N. 8133, 8145. "Federal matching for social services prior to fiscal year 1973 was mandatory and open-ended. Every dollar a State spent for social services was matched by three Federal dollars. In 1971 and 1972 particularly, States made use of the Social Security Act's open-ended 75 percent matching to increase at a rapid rate the amount of Federal money going into social services programs. The Federal share of social services was about threequarters of a billion dollars in fiscal year 1971, about $\$ 1.7$ billion in 1972 , and was projected to reach an estimated $\$ 4.7$ billion for fiscal year 1973 . Faced with this projection, the Congress enacted a limitation on Federal funding as a provision of the State and Local Fiscal Assistance Act of 1972." Id. at 8135.

See also 1974 U.S.C.C.A.N. 8133, 8152.
1642 U.S.C.A. § 654(6) (July 1, 1975).

The current federal child support program is vastly different from its previous incarnations. The federal government serves as a nucleus for policymaking, technical assistance and coordination
between state agencies and other federal agencies that provide assistance to the child support program. ${ }^{17}$ Each state provides services to families under a plan approved by the federal government. ${ }^{18}$

Congress created a new chapter in welfare reform when it enacted the Personal Responsibility and Work Opportunity Reconciliation Act of 1996 ("PRWORA"). ${ }^{19}$ PRWORA altered the structure of public welfare funding by replacing the AFDC program with the Temporary Aid for Needy Families program ("TANF"). ${ }^{20}$ "PRWORA established TANF as a block grant, rather than an entitlement, meaning that states would receive a set amount of money each year according to a statutory formula, rather than on the basis of need or in accordance with macroeconomic conditions."21

Some of PRWORA's requirements-and subsequent amendments to Title IV-D of the Social Security Act-also apply to families who do not receive services from a state's child support enforcement program. For example, each state that receives TANF funding is required to maintain "a State Disbursement Unit for the collection and disbursement of payments under support orders. The State Disbursement Unit [is] involved in: (1) all Title IV-D cases and (2) cases in which a support order is initially issued in the state on or after January 1, 1994 and in which income is subject to withholding ...."22

Another such requirement applies to Louisiana's child support guidelines: "Each State, as a condition for having its State plan approved ... must establish guidelines for child support award amounts within the State."23 "The guidelines ... are to be used in any proceeding to establish or modify child support filed on or after October 1, 1989." ${ }^{24}$ "The State must review, and revise, if

[^1]appropriate, the guidelines ... at least once every four years to ensure that their application results in the determination of appropriate child support award amounts." 25

As part of the review of a State's guidelines ... a State must consider economic data on the cost of raising children and analyze case data, gathered through sampling or other methods, on the application of, and deviations from, the guidelines. The analysis of the data must be used in the State's review of the guidelines to ensure that deviations from the guidelines are limited. ${ }^{26}$

The quadrennial review of Louisiana's guidelines was originally entrusted to the Louisiana Department of Social Services and the Louisiana District Attorneys Association. ${ }^{27}$ Each review has been conducted "in consultation with the child support review committee ...." 28

### 3.0 REVIEW PROCESS

Public input was solicited through online surveys. Links to the surveys were posted on several websites: The Louisiana Support Enforcement Association, Louisiana District Attorneys Association and the Department of Children and Family Services.

The surveys targeted two groups: parents and practitioners. The practitioners consisted of attorneys, hearing officers, judges and non-attorneys who work in the state's child support program. In all, 2,830 parents and 402 practitioners responded to the surveys.

The Committee also conducted several public meetings between August 2019 and January 2020. The meetings gave citizens an opportunity to share their ideas and concerns. Several topics were discussed during the meetings. The topics are listed below.

[^2]
### 4.0 TOPICS AND RECOMMENDATIONS

### 4.1 SOCIAL SECURITY AND VETERANS' ADMINISTRATION BENEFITS

"[T]he duty of a parent to support his children is an obligation imposed by law." ${ }^{29}$ "A parent may discharge this duty by either (1) providing support in kind as a domiciliary parent or (2) paying money for obtaining the support, maintenance, and education as a nondomiciliary parent."30

Under Louisiana's guidelines, "social security benefits received by a child due to the earnings of a parent shall be credited as child support to the parent upon whose earning record it is based, by crediting the amount against the potential obligation of that parent." ${ }^{31}$ However, nothing governs the courts' treatment of any overpayments that occur when the monthly benefit exceeds the support obligation. Louisiana's appellate courts have rarely addressed this issue. ${ }^{32}$

Some states consider the additional amount a "windfall" or "gratuity" to the minor children. ${ }^{33}$ The committee decided that adopting a similar approach is unnecessary in Louisiana.

Louisiana's guidelines also require "an evidentiary hearing before any arrearage is reduced based upon any lump sum payments received by the child." ${ }^{34}$ Some states only allow a lump sum payment to be applied to particular arrears:

Three distinct types of arrearages can arise .... First, there are arrearages which accrued prior to the start of the disability or retirement. Second, there are arrearages which accrued after the start of retirement or disability eligibility (and concurrent application for benefits), but before benefits were received. Governmental bureaucracies like the courts, often move with exceeding slowness; it is not unheard of for it to take a year for an application for benefits to be processed. Third, there are arrearages which accrued after the benefits were being received by the obligee and which exist by virtue of those payments not being applied to the support obligation. ${ }^{35}$

[^3]It appears that a majority of states that have considered this specific issue allow a credit against an obligor parent's child support arrearage for a lump-sum payment from the SSA to a child. In a majority of those states, however, the lump-sum payment is only applied as a credit for the specific time period when the obligor parent becomes eligible for social security benefits but has yet to receive a payment. Any arrearages accrued before the obligor parent becomes eligible for benefits may not be reduced by the lump-sum payment. ${ }^{36}$

It was determined that this approach would not work in Louisiana since payments are generally applied to the oldest debt first. ${ }^{37}$

In some states, "Veterans' Administration benefits may be used to satisfy child support obligations." ${ }^{38}$ The committee spent some time discussing whether La. Rev. Stat. § 9:315.7 should be amended to include certain disability benefits.

The committee ultimately decided that no changes are needed in this area.

### 4.2 SHARED CUSTODY

Courts, legislatures, and commentators are changing the vocabulary of child custody to reflect the evolving reality of twenty-first century family life. Parental responsibilities after separation or divorce are increasingly referred to as "decision-making" instead of "legal custody" and as "parenting time" in lieu of "physical custody." Calls for a $50 / 50$ joint parenting time/physical custody presumption have sparked controversy. In some states, legislation already aims to ensure frequent and continuing parent-child contact with no specific temporal sharing formula. ${ }^{39}$
"One of the most important variables in determining the proper amount of child support is the form of custody ordered by the court." ${ }^{40}$ Louisiana's guidelines include alternative methods for calculating child support when parents have been awarded joint, split or shared custody of their children. ${ }^{41}$ "There is general agreement that shared custody is more expensive than sole custody.

[^4]The major cause of this additional expense is the need to duplicate housing and related costs, such as utilities, household furnishings, play and study space, toys, and play equipment." ${ }^{42}$

In Louisiana "'[s]hared custody' means that each parent has physical custody of the child for an approximately equal amount of time." ${ }^{43}$ "In determining whether a particular arrangement constitutes shared custody, the statute does not bind the trial court to a threshold determined solely on a number of days. Rather, the statute mandates an 'approximately equal amount of time." ${ }^{\prime 4}$

There is no ironclad definition for the phrase "approximately equal amount of time."45 "In determining whether a particular arrangement is shared, LSA-R.S. 9:315.9 does not bind the trial court to a threshold percentage determined solely on the number of days."46 The absence of a definition has led to a wide variety of decisions. For example, in one Fifth Circuit case the trial court decided that the parents had shared custody because an interim custody order granted physical custody to the father $42.85 \%$ of the time. ${ }^{47}$ In another case a judge awarded a father physical custody of his children "approximately 42.85 percent of the time." 48 The First Circuit found there was "no error or abuse of discretion in the trial court's apparent conclusion that the joint custody order ... did not provide each parent with physical custody of the child for an 'approximately equal' amount of time." ${ }^{49}$ In a third case the Fifth Circuit held that the trial court acted appropriately when it determined that shared custody did not apply because the father had the child $56 \%$ of the time but the mother was the domiciliary parent. ${ }^{50}$

According to our courts, "[i]t is obvious ... that when the legislature intends to fix a threshold parameter, it does so. ${ }^{51}$ Until now, the Legislature has declined to do so. ${ }^{52}$
[W]hile there should be some adjustment to the amount of support for shared physical custody, it is difficult for a child support formula to determine how much that adjustment should be. Because of the need to make some kind of adjustment for shared custody, the support guidelines have incorporated provisions that make

[^5]such an adjustment, but the guidelines widely vary in how that adjustment is calculated. ${ }^{53}$

Louisiana's guidelines are not an outlier when it comes to shared custody. For example, in Alaska "[a] parent has shared physical custody (or shared custody) of children ... if the children reside with that parent for a period specified in writing in the custody order of at least 30, but no more than 70, percent of the year, regardless of the status of legal custody."54 In Indiana, "[p]arenting time is considered equally shared when it is 181 to 183 overnights per year." ${ }^{55}$ Some states simply consider shared custody a reason to deviate under their child support guidelines. ${ }^{56}$

Constructing a recommendation for a legislative solution is easier said than done. After all, a "one size fits all" approach is not proper for determining custody. ${ }^{57}$ The same holds true when determining whether to calculate support using the alternate worksheet referenced in La. Rev. Stat. § 9:315.9.58 In addition, there may be some value in not defining the phrase "approximately equal" since doing so could encourage some obligors to push for a definite amount of time with their children solely to obtain some reprieve from their support obligations.

Therefore, the committee recommends that no changes be made to La. Rev. Stat. § 9:315.9.

[^6]
### 4.3 DEPENDENT TAX CREDIT AND THE AFFORDABLE CARE ACT

Each state's child support guidelines must "[a]ddress how the parents will provide for the child's health care needs ...."59 Fulfilling this requirement became more complicated with the enactment of the Affordable Care Act in 2010. ${ }^{60}$

States [were] unsure of what to do about medical child support provisions in light of the Affordable Care Act (ACA). They recognize[d] that the parent mandated to provide health insurance under ACA may not be the same parent ordered to provide health insurance by the child support order. There [was] also a concern that the cost of the child's health insurance used to determine the support award [would] be different once ACA [was] fully implemented. There [was] a similar concern about the underlying assumptions about the cost of the child's healthcare incorporated into guidelines formulas/schedules. Another concern [was] the impact of which parent claims the child as a tax exemption because the parent who claims the child faces the IRS shared-responsibility payment (i.e., a penalty) for failure to comply with the health insurance mandate. It is not uncommon for child support orders to reflect that the custodial parent has released his or her claim to the tax exemption for the child to the nonresidential parent. In addition, states [were] concerned that enforcing medical support orders, as federally required, [would] overlap[] with some of the activities that [would] be used to enforce the ACA insurance mandate. ${ }^{61}$

Major changes have been made to the Affordable Care Act in recent years. ${ }^{62}$ Since none of them have offered any clarity, the ultimate impact of the Affordable Care Act on the child support guidelines still cannot be determined. Consequently, the committee is unable to offer any assistance to alleviate any remaining confusion.

The committee's discussion of the Affordable Care Act did lead to the deliberation of another topic-the obligor's right to claim a child for tax purposes. ${ }^{63}$
"The amounts set forth in the [child support] schedule in R.S. 9:315.19 presume that the custodial or domiciliary party has the right to claim the federal and state tax dependency deductions and

[^7]any earned income credit." ${ }^{64}$ However, the court may assign the right to the obligor in certain situations. ${ }^{65}$ Before receiving the court's permission to claim the deductions, the obligor must not owe any arrears, be responsible for more than half the total support obligation and prove that " $[t]$ he right to claim the dependency deductions or, in the case of multiple children, a part thereof, would substantially benefit the non-domiciliary party without significantly harming the domiciliary party." ${ }^{66}$

The committee considered the fact that parents can no longer receive a deduction on their federal taxes for any of their children after 2017.67 The committee also discussed how La. Rev. Stat. § 9:315.18 does not provide a penalty for an obligor who subsequently falls behind on a support obligation.

The committee suggests two changes to La. Rev. Stat. § 9:315.18. First, the statute should be amended to prohibit an obligor from claiming a child as a dependent if arrears are owed for that child at the end of the tax year. Second, any references to deductions should be updated to include recent changes in federal tax law.

### 4.4 MULTIPLE CHILD SUPPORT ORDERS FOR THE SAME CHILD

"Within the United States, federal laws exist to prevent duplication in child support orders. Federal legislation encourages the reduction of competing child support orders. The UIFSA and FFCCSOA both streamline child support enforcement across the nation." ${ }^{68}$ "A major goal of UIFSA was to cut down on the incidence of multiple support orders in a single case. UIFSA also attempted to cut down on the number of cases in which multiple states' courts are involved, in favor of more single state proceedings." ${ }^{69}$

[^8]UIFSA provides a procedure for reconciling multiple orders issued in different states for the same child. ${ }^{70}$

It is not altogether clear whether the terms of UIFSA apply to a strictly intrastate case; that is, a situation in which multiple child-support orders have been issued by multiple tribunals of a single state and the parties and the child continue to reside in that state. This is not an uncommon situation .... Further, FFCCSOA does not make a distinction regarding the tribunals that issued multiple orders. If multiple orders have been issued by different tribunals in the home state of the child, most likely the most recent will be recognized as the controlling order, notwithstanding the fact that UIFSA Section 207 (b)(2)(B), and FFCCSOA 42 U.S.C. § $1738 \mathrm{~B}(\mathrm{f})(3)$, literally do not apply. At the very least, [UIFSA and] FFCCSOA, provide a template for resolving such conflicts. ${ }^{71}$
"[S]ubject matter jurisdiction with regard to the issue of child support is governed by Louisiana's version of the UIFSA ...."72 The same act prohibits a court of this state from issuing a support order at the request of a party outside the state when a support order already exists. ${ }^{73}$ Yet UIFSA does not explicitly prohibit the creation of multiple orders in Louisiana when all of the parties reside in the state.

In Louisiana "[i]t is [normally] well settled that when two courts have concurrent jurisdiction over the same subject matter, the court which first obtains jurisdiction and possession of the res retains it to the end of the controversy to the exclusion of all others."74 Yet on an intrastate basis, nothing completely bars a Louisiana court from issuing a subsequent support order when one already exists. ${ }^{75}$ In fact, Louisiana law sometimes authorizes the coexistence of multiple orders. For

[^9]The essence of the doctrine of res judicata is that a valid final judgment is conclusive between the parties, and all causes of action arising out of the transaction or occurrence that is the subject of the suit are extinguished and merged into a judgment in favor of the plaintiff, or are extinguished and merged into a judgment in favor of the defendant as to preclude subsequent action. This bars the subsequent relitigation of any issue that was actually litigated and determined if that determination was essential to the judgment.

Muhammad v. Office of Dist. Attorney for Par. of St. James, 16-9, pp. 8-9 (La. App. 5 Cir. 4/27/16); 191 So.3d 1149, 1155. (Internal citations omitted). "The doctrine of lis pendens prevents a plaintiff from litigating a second suit when the suits involve the same transaction or occurrence between the same parties in the same capacities." Aisola v. Louisiana Citizens Prop. Ins. Corp., 2014-1708, p. 4 (La. 10/14/15); 180 So.3d 266, 269. (Italics in original). "The test for deciding whether an exception of lis pendens should be granted is to inquire whether a final judgment in the first suit would be res judicata in the subsequently filed suit." Warner v. Carimi Law Firm, 98-613, p. 18 (La. App. 5 Cir. 12/16/98); 725
example, La. Child. Code art. 311 "clarifies the independent nature of juvenile and civil court support awards, allowing coexistent orders under which payment to one may serve as a setoff for the [other]." 76 " $[T]$ here is no concurrent jurisdiction as between the juvenile court in a criminal charge against an adult of non-support of his minor children and the civil district court in a proceeding for divorce or separation from bed and board in which a judgment awarding alimony is incidental thereto."77 "The two jurisdictions are independent of each other. One jurisdiction is civil and adjudicates the rights of the two parties vis-a-vis one another. The other is quasi-criminal and adjudicates the interest of the state as it protects the rights of a parent and child." ${ }^{78}$

Unfortunately, our state jurisprudence provides no assistance. As the First Circuit once lamented:
We recognize the hardship which exists where the custodial parent is forced to journey to another parish to again litigate the issues of child support, custody and visitation. And ... it is inequitable to allow a disgruntled husband, bound by what he feels is a high child support award, to move across the state to what he considers a friendly forum and compel the wife to undergo legal expenses and time consumption in relitigating the issue. However, we find the state of the law to be ... that such situations are sanctioned. This problem addresses itself to the legislature for resolution. ${ }^{79}$

Other states' legislatures have taken one of two approaches. Some have limited the power of their courts to issue a second support order. For example, a Georgia court "may exercise continuing, exclusive jurisdiction for purposes of entering a child support order if the court has subject matter and personal jurisdiction to make such a child support order, and no previous support order has been entered by a court of competent jurisdiction with respect to the child or

So.2d 592, 600-01, writ denied, 99-0466 (La. 4/1/99); 742 So.2d 560. (Internal citations omitted). "The applicability of res judicata depends on the valid jurisdiction of the court which rendered the judgment, just as the applicability of lis pendens depends upon the valid jurisdiction of the court in the first suit." Kelty v. Brumfield, 633 So.2d 1210, 1215 (La. 1994). (Internal citations omitted).

However, res judicata does not apply "[i]n an action for divorce under Civil Code Article 102 or 103, [or] in an action for determination of incidental matters under Civil Code Article 105 ...."LA. Rev. Stat. Ann. § 13:4232(B). "[C]hild support is a matter incidental to divorce ...." Richardson v. Richardson, 2002-2415, p. 4 (La. App. 1 Cir. 7/9/03); 859 So.2d 81, 85.
"A res judicata objection is a peremptory exception and may be pleaded only prior to submission of the case to trial." Huval Tractor, Inc. v. Journet, 452 So.2d 373, 375 (La. App. 3 Cir. 1984), writ denied, 458 So.2d 120 (La. 1984). (Internal citations omitted). Meanwhile, "the exception of lis pendens is a dilatory one .... It cannot be entertained after answer is filed." Jolissaint v. Krafco Container Corp., 55 So.2d 583, 584 (La. App. 2 Cir. 1951). So it is possible for a court to issue a second order if an exception of res judicata or lis pendens is not granted.
${ }^{76}$ LA. Child. Code art. 311 cmt . b.
${ }^{77}$ State v. Galjour, 215 La. 553, 566; 41 So.2d 215, 219-20 (1949).
${ }^{78}$ Chaisson v. Chaisson, 95-1525, p. 4 (La. App. 3 Cir. 4/17/96); 673 So.2d 1142, 1144. (Internal citations omitted).
${ }^{79}$ Wasson v. Wasson, 402 So.2d 718, 719 (La. App. 1 Cir. 1981).
children named in the support order." ${ }^{80}$ "[A] ... modification action is the custodial parent's exclusive remedy in regard to supplementing the decree with a provision obligating the noncustodial parent to pay additional child support." ${ }^{81}$

In Texas "a court acquires continuing, exclusive jurisdiction over the matters ... in connection with a child on the rendition of a final order." 82 "A trial court that enters a decree affecting the child retains continuing, exclusive jurisdiction over [a suit affecting the parent-child relationship] pertinent to that decree." ${ }^{83}$ A Texas court has "jurisdiction over a suit if it has been, correctly or incorrectly, informed by the vital statistics unit that the child has not been the subject of a suit and the petition states that no other court has continuing, exclusive jurisdiction over the child." ${ }^{84}$

Other states utilize a system to consolidate multiple orders. For instance, in Oregon:
When two or more child support judgments exist involving the same obligor and child and the same period, any party to one or more of the child support judgments ... may file a petition with the court for a governing child support judgment .... When a matter involving a child is before the court and the court finds that two or more child support judgments exist involving the same obligor and child and the same period, the court on its own motion, and after notice to all affected parties, may determine the controlling terms of the child support judgments and issue a governing child support judgment .... ${ }^{85}$
"'Governing child support judgment' means a child support judgment issued in [Oregon] that addresses child support, including medical support ... and is entitled to exclusive prospective enforcement or modification with respect to any earlier child support judgment issued in this state." ${ }^{66}$

Providing any solution would fall outside of the committee's mandate under La. Rev. Stat. § $9: 315.16$. It would be better to address this issue in some body of law other than the child support guidelines. For that reason, the committee recommends that the legislature request that the Law Institute or another appropriate body study this matter..

### 4.5 SECOND AND MULTIPLE FAMILIES ${ }^{87}$

At issue is how state guidelines account for children born to parents who already have children with previous partners. Should the children in the two (or more) families be treated

[^10]the same, with a similar claim on the parent's resources, or are the children from the first family entitled to be given a higher priority? ${ }^{88}$

Child support law is perhaps the one area in law and policy that directly governs multiplepartner fertility. It does so through a set of guidelines that apply in serial family cases. Specifically, where a noncustodial parent is responsible for paying multiple child support orders because he has children with more than one partner, specialized serial family guidelines provide the mathematical formula used to calculate the amount due under each individual order. Each child support order is awarded separately and sequentially. Additionally, each order is set in an individual proceeding that pertains to the father, the mother, and their child (or children) in common. The first child support order is calculated based on the father's full income, less any statutorily prescribed deductions. The second order is calculated based on the father's income minus the previous child support requirement; thus, the second order is less than the first, and so on. Therefore, in paternal multiple-partner fertility situations, where a father has more than one child support order, children receive unequal amounts of child support. The rationale underlying this approach is that the prior awards should be privileged over later awards to protect the economic needs and reliance interests of the first family. Some commentators have criticized this approach, arguing instead for equal awards to children across households. ${ }^{89}$

The two primary ways to allocate child support among families are "first family first" or "equalization." In "first family first" policy, the first family receives an award that is not reduced when new children are born. The second way to allocate child support among families is through "equalization" policy, which calls for "equal treatment" of all the children of a particular parent. ${ }^{90}$

Louisiana has historically supported the former approach. ${ }^{91}$ Yet no state has embraced the latter, so Louisiana's position is commonplace. ${ }^{92}$ A previous attempt to adopt a different methodology was defeated in the Legislature years ago. ${ }^{93}$

The committee recommends that the Legislature reexamine the idea of equalizing payments between multiple families. The study should be conducted by the Law Institute or some other entity.

[^11]
### 4.6 CHILD SUPPORT SCHEDULE

Louisiana's child support schedule underwent a major overhaul in 2016 after a thorough assessment. ${ }^{94}$ Even so, there are several changes recommended for the schedule. Further details are provided in Appendix A of this report.
${ }^{94}$ See 2016 La. Acts 602.

## Appendix A

Why is the Proposed 2020 Child Support Guideline Schedule different from the current schedule, adopted in 2016? A Brief Outline:

- Summary of Procedure: The 2016 schedule was built based on incomes, cost-of-living, and tax rates from 2014. The 2020 schedule is based in incomes, cost-of-living, and tax rates from 2019. For both schedules, obligations are determined based on net (after-tax) incomes. Then tax rates are used to determine the gross income required to earn a particular net income, with assumptions regarding withholdings. Since 2014 the federal tax rates changed due to the Tax Cuts and Jobs Act, state tax rates changed due to changes to Louisiana's state tax rates effective February 16, 2018, and the additional Medicare tax of $0.9 \%$ is applied to the 2020 schedule.
- For the lowest gross incomes ( $\$ 950$ to $\$ 2,050$ ): A minimum obligation of $\$ 100$ will be maintained in the 2020 Schedule. The major determinant of changes to obligations for monthly gross incomes of $\$ 950$ to $\$ 2,050$ (corresponding to net incomes of $\$ 822$ to $\$ 1,733$ ) is the updated self-support reserve. As of 2016, a self-support reserve is included to allow the obligor parent sufficient net income, after payment of child support, to at least live at a subsistence level. The self-support reserve is based on $75 \%$ of the federal poverty level for one person. The federal poverty level increased from 2014 to 2019, causing the self-support reserve to increase from $\$ 729.38$ in 2014 to $\$ 780.62$ in 2019.
For example, suppose CAGI is $\$ 1,250$, corresponding to a net income of $\$ 1,1109.54$, and there are two children. The obligation without a self-support reserve, based on analyzed data, is $\$ 374.41$. However, since the net income of $\$ 1,109.54$ minus the self-support reserve of $\$ 780.62$ is less than $\$ 374.41$, the obligation becomes (Net income - self-support reserve) $\times 0.91$, which in this example is $(\$ 1,109.54-\$ 780.62) \times 0.91=\$ 299$. The difference between the net income and the self-support reserve is multiplied by 0.91 so that the marginal tax rate on additional income is less than $100 \%$; that is, the obligor will not have to $100 \%$ of every additional dollar earned to child support.
- For gross incomes in the middle ( $\$ 2,050$ to $\$ 19,400$ ): Due to changes in federal tax rates, the net income that one receives for monthly gross incomes from $\$ 900$ to $\$ 19,400$ is higher in 2019 than in 2014. For example, in 2014 a gross income of $\$ 4,000$ yielded net income of $\$ 3,129$, while in 2019 the same gross income of $\$ 4,000$ yields a net income of $\$ 3,225$. This decrease in taxes paid, combined with slight inflation from 2014 to 2019, caused the obligations to increase for gross incomes up to $\$ 19,400$.
- For the highest gross incomes (\$19,450 and above): Due to changes in federal tax rates, particularly the additional Medicare tax of $0.9 \%$, the net income that one receives for monthly gross incomes above $\$ 19,400$ is lower in 2019 than in 2014. In 2019 the additional Medicare tax applies to annual earnings over $\$ 200,000$, but only the earnings over $\$ 200,000$. At a minimum, the monthly gross income needs to be over $\$ 16,667$ for the additional Medicare tax to apply. In computing the 2019 Schedule, once monthly gross incomes reach \$19,450, the additional Medicare tax of $0.9 \%$ causes the net income received to be lower in 2019 than in 2014. For example, for a monthly gross income of $\$ 25,000$, the net income in 2014 was $\$ 16,229$, but the net income in 2019 was $\$ 15,519$. Even though the total federal income tax
paid is lower in 2019 than in 2014, the increase in Medicare taxes paid (and the slightly higher amount paid in Social Security taxes), caused the total taxes paid by those with the highest gross incomes to increase, reducing their net income and reducing the obligations in the Schedule at these high gross incomes. For example, if monthly gross income is $\$ 25,000$ and there are two children, the monthly federal taxes paid were \$6,626 in 2014 and \$6,327 in 2019. However, the total Medicare and Social Security monthly taxes paid increased from \$967 in 2014 to \$2,035 in 2019.
- 

I. Proposed Changes to the Schedule of Basic Child Support Obligations

## A. Background

Louisiana first adopted the Child Support Guidelines in 1989. These guidelines were based on the Income Shares model, which relies on the concept that the child or children should receive the same proportion of parental income that they would have received if the parents lived together. ${ }^{95}$ Louisiana's current Schedule of Basic Child Support Obligations is still based on the Income Shares model. Forty states, Guam, and the Virgin Islands currently use the Income Shares Model. The Child Support Obligation schedule that was adopted in 2016 is based on incomes, inflation and tax levels from 2014.

In 2016 Louisiana's child support schedule was updated to incorporate the most commonly used measures of child-rearing expenditures, the measures that had been developed by Dr. David Betson, Associate Professor of Economics at the University of Notre Dame. Dr. Betson estimated child-rearing expenditures using data from the Consumer Expenditure Survey, a national survey of households across the United States. Dr. Betson has produced estimates of child-rearing expenditures based on data from the Consumer Expenditure Survey (CES) for four time periods: for his first study he used CES data from 1980-1986, the second study was based on CES data from 1996 to 1999, and the third and fourth studies were based on CES data from 1998 to 2004 and 2004 to 2009, respectively. Although these four studies covered almost thirty years, there was little variation in the estimates of child-rearing expenditures across the four studies: the percentage of total household expenditures devoted to child-rearing expenditures for one child ranged from 24 to 26 percent, for two children percentage ranged from 35 to 37 percent, and for three children the range was 40 to 44 percent. ${ }^{96}$ In 2016 Louisiana's child support obligation schedule was updated with the incorporation of Dr. Betson's estimates of child-rearing expenditures using the most recent CES data, from 2004 to 2009.
B. Changes incorporated in the current child support schedule

In 2019 Dr. Betson's estimates of child-rearing expenditures based on CES data from 2004 to 2009 are still the most recent estimates. However, Dr. Betson has slightly updated

[^12]the estimates since that time. We propose to use Dr. Betson's slightly updated estimates of child-rearing expenditures, shown in Table 1 below. These estimates are different from the estimates used in 2016 because the annual net income ranges, shown in the first column in the left, are different from those used in 2016. In comparison to the estimates of child-rearing expenditures used to create Louisiana's 2016 schedule, the estimates used to create the 2020 schedule (in Table 1) differ for two reasons:

- The estimates used in 2016 were divided across 19 income ranges, while the estimates for 2020 are divided across 21 income ranges. In particular, the highest income range in 2016 was for net incomes greater than \$150,000, whereas the highest net income range, in Table 1 below, is for incomes greater than \$160,000.
- Dr. Betson's estimates of child-rearing expenditures for 2016 were based on income ranges in which income was measured in 2010 dollars, while the estimates for 2020 are for income ranges in which income is measured in 2012 dollars.

In summary, both the 2016 and the proposed 2020 obligation schedules are based on Dr. Betson's estimates of child rearing expenditures from the Consumer Expenditures Survey for years 2004 to 2009. However, the data is summarized across the income ranges differently in 2020. Despite these changes, the summarized estimates of child-rearing expenditures used to create the 2020 schedule are very similar to those used to create the 2016 schedule.

In addition to using the slightly updated estimates of child-rearing expenditures, the schedule for 2020 differs from Louisiana's current schedule, developed in 2016, due to the following changes:

- The income ranges in Table 1 are adjusted for inflation that has occurred between 2012 (the year for which the net income ranges in the first column are derived) and 2019.
- The income ranges in Table 1 are also adjusted to account for differences between Louisiana's cost of living and the national cost of living, since the child-rearing estimates are based on national data. If the difference between Louisiana's cost of living and the nation's cost of living has changed significantly between 2014 and 2019, this will be reflected in the child support schedule.
- The child-rearing expenditures in Table 1 are based on net incomes, but Louisiana's child support obligation schedule is based on gross incomes. Federal, state, and Federal Insurance Contribution Act (FICA) tax rates from 2019 are used to determine how net incomes are determined from combined gross incomes. Changes to federal, state, and FICA tax rates have occurred since 2014 and are described below.
- In the 2016 schedule the obligations at low income levels were modified to ensure that the non-custodial parent maintained a self-support reserve of at least $75 \%$ of the poverty level. Since 2014, the self-support reserve ( $75 \%$ of the poverty level) has increased from $\$ 729.38$ to $\$ 780.62$. This increase in the self-support reserve caused the largest percent changes in the schedule from 2016 to 2020.

| Annual Net Income (2012 dollars) | Expenditures as a \% of Net Income | Expenditures on Children as a \% of Total Expenditures |  |  | Child Care as a \% of Total Expenditures (one child) | Medical Costs > \$250 per child as a \% of Total Expenditures |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  |  | One Child | Two Children | Three Children |  |  |
| Less than \$15,000 | 426.04\% | 21.61\% | 33.68\% | 41.57\% | 0.3446\% | 0.1242\% |
| \$15,001-\$20,000 | 165.00\% | 22.44\% | 34.92\% | 43.04\% | 0.3639\% | 0.2693\% |
| \$20,001-\$25,000 | 134.12\% | 22.66\% | 35.25\% | 43.44\% | 0.4871\% | 0.6430\% |
| \$25,001-\$30,000 | 118.67\% | 22.83\% | 35.51\% | 43.74\% | 0.5066\% | 0.5640\% |
| \$30,001-\$35,000 | 111.21\% | 22.97\% | 35.72\% | 43.98\% | 0.6658\% | 0.4876\% |
| \$35,001-\$40,000 | 105.39\% | 23.09\% | 35.89\% | 44.18\% | 0.6429\% | 0.6309\% |
| \$40,001-\$45,000 | 98.85\% | 23.19\% | 36.03\% | 44.36\% | 0.8937\% | 0.6599\% |
| \$45,001-\$50,000 | 95.66\% | 23.25\% | 36.12\% | 44.46\% | 0.9943\% | 0.9044\% |
| \$50,001-\$55,000 | 91.00\% | 23.28\% | 36.17\% | 44.52\% | 1.1487\% | 0.8072\% |
| \$55,001-\$60,000 | 89.80\% | 23.34\% | 36.26\% | 44.62\% | 1.3082\% | 0.6023\% |
| \$60,001-\$65,000 | 85.17\% | 23.40\% | 36.34\% | 44.71\% | 1.2134\% | 0.9437\% |
| \$65,001-\$70,000 | 82.64\% | 23.41\% | 36.35\% | 44.73\% | 1.3289\% | 0.7969\% |
| \$70,001-\$75,000 | 78.18\% | 23.45\% | 36.42\% | 44.81\% | 1.4856\% | 0.8175\% |
| \$75,001-\$80,000 | 75.70\% | 23.44\% | 36.41\% | 44.79\% | 1.4308\% | 0.9152\% |
| \$80,001-\$90,000 | 75.60\% | 23.52\% | 36.51\% | 44.92\% | 1.4754\% | 0.8076\% |
| \$90,001-\$100,000 | 73.10\% | 23.57\% | 36.59\% | 45.01\% | 1.3564\% | 0.9983\% |
| \$100,001-\$110,000 | 70.15\% | 23.63\% | 36.68\% | 45.12\% | 1.8433\% | 0.8424\% |
| \$110,001-\$120,000 | 66.42\% | 23.65\% | 36.70\% | 45.14\% | 1.7049\% | 0.8489\% |
| \$120,001-\$135,000 | 66.26\% | 23.72\% | 36.80\% | 45.26\% | 1.7482\% | 0.8514\% |
| \$135,001-\$160,000 | 61.26\% | 23.75\% | 36.86\% | 45.32\% | 1.8513\% | 0.6834\% |
| More than \$160,000 | 50.69\% | 23.85\% | 37.00\% | 45.49\% | 2.0101\% | 0.7060\% |
| ${ }^{1}$ This table is reproduced from "Quadrennial Review of the Maryland Child Support Guidelines and Schedule of Basic Support Obligations," by Econometrica, Inc., April 2, 2013. |  |  |  |  |  |  |

II. Developing the Child Support Obligations
A. Estimating Child-Rearing Expenditures

Most studies use estimates of child-rearing expenditures that are developed using data from the Consumer Expenditure Survey (CEX) that is conducted by the Bureau of Labor Statistics. The CEX data include a nationally representative sample and samples that are representative of four defined regions (Midwest, Northeast, South, and West). Although
the CEX data consist of a large sample, which includes about 7,000 households per quarter, there are not enough families surveyed from any one particular state, including Louisiana, to rely solely on data from that single state to create child-rearing expenditures. Nevertheless, the national sample is the most comprehensive and detailed survey on household expenditures, and the sample includes data on income and household characteristics that are necessary to construct estimates of child-rearing expenditures. Households remain in the survey for a maximum of five quarters, with households rotating in and out each quarter. However, only data from the second through fifth quarterly interviews are reported in the public use files. Dr. Betson's estimates of child-rearing expenditures are based on families that completed at least three (and a maximum of four) interviews. Further information on the process used to create Dr. Betson's estimates of child-rearing expenditures can be found in the 2016 Quadrennial Report.
B. Updating the Net Income Ranges to 2019 Dollars

Several additional steps must be taken to develop a Schedule of Basic Support Obligations from Dr. Betson's estimates of child-rearing expenditures shown in Table 1. The first is to update the net income brackets for changes in the cost of living between the time the data were collected and the current time period. The income brackets shown in Table 1 show net incomes based on the cost of living in 2012. These are updated for increases in the cost of living between 2012 and 2019 using measures of the consumer price index for these two years. ${ }^{97}$ Below is an example of the methodology used to update an income of $\$ 25,001$ in 2012 to the equivalent value in 2019, based on increases in the cost of living:
$\$ 25,001 \times[$ CPI for 2019 / CPI for 2012] $=\$ 27,822$
where CPI represents the annual Consumer Price Index for each year, as reported by the Bureau of Labor Statistics. All minimum and maximum income amounts shown in the income brackets in Table are adjusted for increases in the cost of living between 2012 and 2019.
C. Adjusting the Net Income Ranges for Louisiana's lower cost of living relative to the national average

Dr. Betsons's estimates of child-rearing expenditures are based on national data from the Consumer Expenditure Survey (CEX). Measures of wages, income, and prices from the Bureau of Labor Statistics have consistently indicated that the cost of living in Louisiana has been lower than the national average for many years. This is important because the salary required to maintain a specific standard of living is different in Louisiana compared to many states and the national average. For example, Dr. Betson reports that based on the CEX data for 2004 to 2009, the average net income for a couple with one child is $\$ 65,666$ (in 2006 dollars). The amount of goods and services that can be purchased by a randomly sampled American couple with one child and a net income of $\$ 65,666$ is less than the amount of goods and services that could be purchased by the average couple in

[^13]Louisiana with one child and a net income of $\$ 65,666$. This is the result of a lower cost of living in Louisiana relative to the national average.

To adjust for the lower cost of living in Louisiana relative to the national average, the net income brackets are further adjusted using a consumer price index for the entire U.S. in 2019 and a consumer price index for southern states in the U.S. in 2019. ${ }^{98}$ Consumer price indexes are not reported at the state level; they are available for major metropolitan areas, such as New Orleans, and the next highest strata is a region. The CPI for the southern region is obtained from the Bureau of Labor Statistics. ${ }^{99}$

For example, consider the original $\$ 25,001$ net income value shown in Table 1 as the minimum value on the fourth row. This net income of $\$ 25,001$ is in 2012 dollars. After applying the methodology shown in equation (i) to adjust for national inflation rates, the equivalent income in 2019 is $\$ 27,822$. This is based on increases in the national cost of living between 2012 and 2019.

In this step this average national value of $\$ 27,822$ will be adjusted for the lower cost of living in Louisiana relative to the national average. The methodology for adjusting for the cost of living across areas of the country at one point in time is very similar to the methodology for adjusting for the cost of living in one area over time. Below, the national value of $\$ 27,822$ is adjusted to find the equivalent net income in Louisiana.

The method below is a standard economic method for finding the income that will allow parents in Louisiana to purchase the same goods and services as parents living in an area where the cost of living is equivalent to the national average. To find the income that Louisiana parents need to have in order to purchase the same goods and services as parents earning $\$ 27,822$ in this location, the following equation is appropriate:

## $\$ 27,822 \times$ [Southern CPI 2019 / U.S. CPI 2019] $=\$ 26,813$

In this example the equivalent value to a national average of $\$ 27,822$ is $\$ 26,813$ for Southern states. As indicated earlier, this is an approximate adjustment because the Southern CPI is based on the cost of living in 16 southern states, including Louisiana, and the District of Columbia. Table 2 illustrates the net income brackets after a) updating the incomes based on the increase in the national cost of living between 2012 and 2019 and b) adjusting the estimates for Louisiana's lower cost of living relative to the national average. ${ }^{100}$

[^14]Table 2. Dr. Betson's Estimates After Cost of Living Adjustments

| Annual Net Income (2012 dollars) | Expenditures as a \% of Net Income | Expenditures on Children as a \% of Total Expenditures |  |  | Child Care as a \% of Total Expenditures (one child) | $\begin{aligned} & \text { Medical Costs } \\ & >\$ 250 \text { per } \\ & \text { child as a \% } \\ & \text { of Total } \\ & \text { Expenditures } \end{aligned}$ |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  |  | One Child | Two Children | Three Children |  |  |
| Less than \$16,088 | 426.04\% | 21.61\% | 33.68\% | 41.57\% | 0.3446\% | 0.1242\% |
| \$16,089-\$21,450 | 165.00\% | 22.44\% | 34.92\% | 43.04\% | 0.3639\% | 0.2693\% |
| \$21,451-\$26,813 | 134.12\% | 22.66\% | 35.25\% | 43.44\% | 0.4871\% | 0.6430\% |
| \$26,814-\$32,175 | 118.67\% | 22.83\% | 35.51\% | 43.74\% | 0.5066\% | 0.5640\% |
| \$32,176-\$37,538 | 111.21\% | 22.97\% | 35.72\% | 43.98\% | 0.6658\% | 0.4876\% |
| \$37,539-\$42,900 | 105.39\% | 23.09\% | 35.89\% | 44.18\% | 0.6429\% | 0.6309\% |
| \$42,901-\$48,263 | 98.85\% | 23.19\% | 36.03\% | 44.36\% | 0.8937\% | 0.6599\% |
| \$48,264-\$53,625 | 95.66\% | 23.25\% | 36.12\% | 44.46\% | 0.9943\% | 0.9044\% |
| \$53,626-\$58,988 | 91.00\% | 23.28\% | 36.17\% | 44.52\% | 1.1487\% | 0.8072\% |
| \$58,989-\$64,350 | 89.80\% | 23.34\% | 36.26\% | 44.62\% | 1.3082\% | 0.6023\% |
| \$64,351-\$69,713 | 85.17\% | 23.40\% | 36.34\% | 44.71\% | 1.2134\% | 0.9437\% |
| \$69,714-\$75,076 | 82.64\% | 23.41\% | 36.35\% | 44.73\% | 1.3289\% | 0.7969\% |
| \$75,077-\$80,438 | 78.18\% | 23.45\% | 36.42\% | 44.81\% | 1.4856\% | 0.8175\% |
| \$80,439-\$85,801 | 75.70\% | 23.44\% | 36.41\% | 44.79\% | 1.4308\% | 0.9152\% |
| \$85,802-\$96,526 | 75.60\% | 23.52\% | 36.51\% | 44.92\% | 1.4754\% | 0.8076\% |
| \$96,527-\$107,251 | 73.10\% | 23.57\% | 36.59\% | 45.01\% | 1.3564\% | 0.9983\% |
| \$107,252-\$117,976 | 70.15\% | 23.63\% | 36.68\% | 45.12\% | 1.8433\% | 0.8424\% |
| \$117,977-\$128,701 | 66.42\% | 23.65\% | 36.70\% | 45.14\% | 1.7049\% | 0.8489\% |
| \$128,702-\$144,789 | 66.26\% | 23.72\% | 36.80\% | 45.26\% | 1.7482\% | 0.8514\% |
| \$144,790-\$171,601 | 61.26\% | 23.75\% | 36.86\% | 45.32\% | 1.8513\% | 0.6834\% |
| More than \$171,601 | 50.69\% | 23.85\% | 37.00\% | 45.49\% | 2.0101\% | 0.7060\% |

## D. Deducting Child Care Expenses

At this point only the income brackets have been changed from Table 1 to Table 2. The next step is to adjust the expenditure values for child care expenses and medical expenses. Dr. Betson's estimates of child-rearing expenditures for one, two, and three children in Table 2 include all expenditures on children, including child care expenses, health insurance premiums, and out-of-pocket medical expenses. However, in Louisiana the basic support obligation should not include spending on child care and extraordinary medical expenses, as these are meant to be added on a case-by-case basis. In the calculation of child support, the actual costs of child care are prorated between the parents
based on their relative proportions of net income and added to the basic support obligation.

Since the administrators of the Consumer Expenditure Survey specifically require families to track their spending on child care, these expenditures can be itemized. Therefore, an adjustment can be made to expenditures as a percentage of total expenditures. Dr. Beton's provides estimates of expenditures on children as a percentage of total expenditures, as shown in the tables above. Child care costs per child ranged from $0.3446 \%$ of total expenditures per child for households with the lowest annual net incomes to $2.0101 \%$ of total expenditures for households with the highest annual net incomes. These estimates of child care expenses include families who do not purchase any child care; if only parents who paid for child care were used to determine child care expenses as a percent of total expenditures on children, these estimates would be much higher.

Since work-related child care expenses are meant to be added to the basic support obligations, child care expenses as a percent of total expenditures are subtracted from expenditures on children as a percent of total expenditures. This is consistent with the current Schedule of Basic Support Obligations. An example is provided below, as part of the discussion in section E. Deducting Medical Expenses.
E. Deducting Medical Expenses

The updated schedule excludes the child's share of extraordinary medical expenses, where extraordinary medical expenses are defined as medical expenditures which exceed $\$ 250$ for an individual (to be consistent with previous Schedules). As described in previous proposed updates to the Child Support Schedule, there are two principal reasons these costs are excluded from the model ${ }^{101}$ :

- Federal regulations ( 45 CFR $\S 302.80$ ) require that a state's child support program must establish and enforce medical support orders. Further, federal regulations (45 CFR §303.31) encourage the state to request that the noncustodial parent carry health insurance that covers the child, if available through the noncustodial parent's employer at a reasonable cost.
- Unreimbursed medical expenses (those not covered by insurance) are highly variable across households and can constitute a large proportion of expenditures on a child.

Although the Consumer Expenditure Survey collects information on medical expenses, these expenditures are not itemized for each family member. Only the total expenses for the entire family are reported. Therefore, a method must be developed for determining the share of medical expenses that should be proportioned to the child(ren). For the purposes of the updated schedule, it is assumed that the child's share of medical expenses is the same as the child's proportion of all expenditures. That is, suppose child-

[^15]rearing expenditures, as a percentage of total expenditures, are $36.17 \%$ for a family with two children whose net income is between $\$ 53,626$ and $\$ 58,988$ (as shown in Table 2). Then it is assumed that the children's share of the total extraordinary medical expenses is also $36.17 \%$. For a two-child family in that range of net income, medical expenses are $0.8072 \%$ of total expenditures. The children's share of medical expenses is subtracted from the share of expenditures proportioned to children:
$36.17-(0.3617 \times 0.8072)=35.88$ percent
For all categories of net income brackets, child care expenses as a percentage of total expenditures, and the child(ren)'s share of medical expenses are subtracted from the family's expenditures on children as a percent of total expenditures. In the example above of a two-child household with net income between $\$ 53,626$ and $\$ 58,988$, child care expenses are 1.1478 percent of expenditures and total extraordinary medical expenses for the family are 0.8072 percent of expenditures. The final estimate of the share of total expenditures that is spent on the two children is
$36.17-(1.1487 \times 2)-(0.3617 \times 0.8072)=33.46$ percent
where child care expenses are multiplied by two because there are two children in the household.
F. Compute child-rearing expenditures as a percentage of net income

Once the previous steps have been completed, the next step is to compute child expenditures as a percentage of net income. We have already computed children's share of total expenditures (after deducting child care and extraordinary medical expenses). To relate these measures to net income, we use Dr. Betson's estimates of total expenditures as a percentage of net income. Multiplying total expenditures (EX) as a percent of net income (NI) by expenditures on children (CC) as a percent of total expenditures, the resulting product is expenditures on children as a percent of net income:

$$
\begin{equation*}
E X / N I \times C C / E X=C C / N I \tag{v}
\end{equation*}
$$

Results from Dr. Betson's estimates of EX/NI using the Consumer Expenditure Survey data indicated that on average, families with annual net incomes below \$40,000 (in 2012 dollars) had total expenditures that were greater than their net income. However, when making the computations using the above equation the value of EX/NI is capped at $100 \%$. In effect, this is based on the assumption that families should not have to spend more than $100 \%$ of their net income.

Calculations of the percent of net income that is devoted to expenditures for the children were completed for families with one, two and three children. The resulting support proportions (of net income) are shown in Table 3 for families with three children. As shown
in Table 3, a three-child family with annual net income in Louisiana between $\$ 32,176$ and $\$ 37,538$ will devote $41.77 \%$ percent ( $43.98-(.6658 \times 3)-(0.4398 \times 0.4876))$ of total expenditures to children. Since expenditures as a percent of net income is capped at $100 \%$, expenditures on children as a percent of net income is also $41.77 \%$.

Table 3. Expenditures on Children as a Percent of Net Income for Parents with Three Children

| Annual Net Income (2014 dollars, Adjusted for Southern states) | Expenditure s as \% of Net Income | Expenditures on Children as \% of Total Expenditures | Child Care as \% of Total Expenditures (Three Children) | Medical Costs > \$250 per child as a \% of Total Expenditures | Expenditures on Children as a \% of Net Income |
| :---: | :---: | :---: | :---: | :---: | :---: |
| Less than \$16,088 | 426.04\% | 41.57\% | 0.3446\% | 0.1242\% | 40.48\% |
| \$16,089-\$21,450 | 165.00\% | 43.04\% | 0.3639\% | 0.2693\% | 41.83\% |
| \$21,451-\$26,813 | 134.12\% | 43.44\% | 0.4871\% | 0.6430\% | 41.70\% |
| \$26,814-\$32,175 | 118.67\% | 43.74\% | 0.5066\% | 0.5640\% | 41.97\% |
| \$32,176-\$37,538 | 111.21\% | 43.98\% | 0.6658\% | 0.4876\% | 41.77\% |
| \$37,539-\$42,900 | 105.39\% | 44.18\% | 0.6429\% | 0.6309\% | 41.97\% |
| \$42,901-\$48,263 | 98.85\% | 44.36\% | 0.8937\% | 0.6599\% | 41.39\% |
| \$48,264-\$53,625 | 95.66\% | 44.46\% | 0.9943\% | 0.9044\% | 39.64\% |
| \$53,626-\$58,988 | 91.00\% | 44.52\% | 1.1487\% | 0.8072\% | 37.05\% |
| \$58,989-\$64,350 | 89.80\% | 44.62\% | 1.3082\% | 0.6023\% | 36.30\% |
| \$64,351-\$69,713 | 85.17\% | 44.71\% | 1.2134\% | 0.9437\% | 36.05\% |
| \$69,714-\$75,076 | 82.64\% | 44.73\% | 1.3289\% | 0.7969\% | 33.56\% |
| \$75,077-\$80,438 | 78.18\% | 44.81\% | 1.4856\% | 0.8175\% | 32.99\% |
| \$80,439-\$85,801 | 75.70\% | 44.79\% | 1.4308\% | 0.9152\% | 31.82\% |
| \$85,802-\$96,526 | 75.60\% | 44.92\% | 1.4754\% | 0.8076\% | 30.66\% |
| \$96,527-\$107,251 | 73.10\% | 45.01\% | 1.3564\% | 0.9983\% | 29.80\% |
| $\begin{aligned} & \hline \$ 107,252- \\ & \$ 117,976 \end{aligned}$ | 70.15\% | 45.12\% | 1.8433\% | 0.8424\% | 28.43\% |
| $\begin{aligned} & \$ 117,977- \\ & \$ 128,701 \end{aligned}$ | 66.42\% | 45.14\% | 1.7049\% | 0.8489\% | 26.80\% |
| $\begin{aligned} & \hline \$ 128,702- \\ & \$ 144,789 \\ & \hline \end{aligned}$ | 66.26\% | 45.26\% | 1.7482\% | 0.8514\% | 26.55\% |
| $\begin{aligned} & \$ 144,790- \\ & \$ 171,601 \end{aligned}$ | 61.26\% | 45.32\% | 1.8513\% | 0.6834\% | 24.31\% |
| More than \$171,601 | 50.69\% | 45.49\% | 2.0101\% | 0.7060\% | 21.06\% |

G. Extend the estimates to households with four, five, and six children.

Dr. Betson's estimates of child-rearing expenditures are only available for families of one to three children because the Consumer Expenditure Survey does not include enough families with more than three children to provide reliable estimates of child-rearing expenditures for these larger families. Therefore, adjustments to the existing data on families of one to three children are necessary to extend the support proportions to households with four, five, and six children. The Panel on Poverty and Family Assistance, a panel assembled by the National Research Council, extensively reviewed equivalency scales and recommended the formula below:

Equivalency Scale Value $=(\text { Number of Adults }+(0.7 \times \text { Number of Children }))^{0.7}$
For three children the equivalency scale formula results in a value of 2.69:
Equivalency Scale Value $=(2+(0.7 \times 3))^{0.7}=2.69$

The equivalency scale allows us to determine how expenditures increase as the number of children in the family increase. This formula indicates that as the number of children in the family increases, the family's total expenditures increase, but at a decreasing rate. That is, while the family increases total expenditures for each additional child, the amounts of additional spending are smaller and smaller as the number of children increase. For example, suppose a family increases it's spending by $\$ 4,000$ per year when the number of children increases from 2 to 3 children. If the number of children in the same family increases from 3 to 4 , total expenditures will increase, but by less than $\$ 4,000$ per year.

More specifically, application of formula (vi) to families with more than three children imply that families' expenditures on four children are 15 percent more than expenditures for three children, expenditures on five children are 10 percent more than expenditures for four children, and expenditures on six children are 8.8 percent more than expenditures on families with five children.
H. Compute marginal proportions between income ranges

After completing all the above steps, the result is a table of support proportions that links child-rearing expenditures to net incomes for families with one to six children (an example for three children is shown in Table 3). However, these proportions are only meant to apply at the midpoint of each net income range. To create a gradual change in support obligations as parents move from one income range to another, marginal percentages were computed.

The steps required to create marginal percentages, and an illustrative example, are provided below:

1) Divide the net income brackets in Table 2 by 12 to make the data monthly.
2) Find the base support obligation required at the midpoint of each income bracket, based on the midpoint of the net income bracket (the net income half way between the minimum and maximum) and the estimates for expenditures on children as a percent of net income.
3) For each net income bracket, find the difference between the bracket's midpoint and the midpoint of the next highest net income bracket.
4) Marginal percentages were computed by dividing a) the difference in the base support obligation between one net income bracket and the next highest net income bracket by b) the difference in the monthly net income at the midpoints between the same brackets.
5) An example is illustrated in Table 4 with annual net income brackets of $\$ 48,264$ $\$ 53,625$ and $\$ 53,626-\$ 58,988$. The example is illustrated for families with three children. After dividing the annual net income brackets by 12 , the monthly net income brackets are $\$ 4,022-\$ 4,468$ and $\$ 4,469-\$ 4,915$ and the midpoints of these monthly net income brackets are $\$ 4,245$ and $\$ 4,692$, respectively. The obligations amounts are calculated by multiplying the estimates of expenditures on children as a percent of net income by the midpoints for the monthly net income brackets. As shown in Table 4, based on these estimates and the monthly midpoints, the obligation for the net income bracket of $\$ 4,022-\$ 4,468$ is $\$ 1,683$ ( $\$ 4,245 \times 39.64 \%$ ) and the obligation for net income bracket of $\$ 4,469-\$ 4,915$ is $\$ 1,738$ ( $\$ 4,692 \times 37.05 \%$ ).

However, suppose one three-child family had a monthly net income of \$4,600 and another had a monthly net income of $\$ 4,700$. If the proportions were used for these families, the obligation for a family with a net income of $\$ 4,600$ would be ( $\$ 4,600 \mathrm{x}$ $0.3964)=\$ 1,823$ and the obligation for a family with net income of $\$ 4,700$ would be $(\$ 4,700 \times 0.3705)=\$ 1,741$. Clearly the obligations should not decrease as net incomes increase; this is the sort of notch between brackets that is eliminated by creating the marginal percentages.

Continuing with the example in Table 4, the basic obligations are shown for each midpoint. After dividing a) the difference in the base support obligations of $\$ 55$ between the two net income midpoints by b) the difference in midpoints of $\$ 447$, the resulting marginal percentage is $12.47 \%$. That is, for families with a monthly net income greater than $\$ 4,245$ and less than $\$ 4,692$, the family will pay $\$ 1,683$ plus $12.47 \%$ of any net income greater than $\$ 4,245$. For the family with a net income of $\$ 4,600$ the calculated obligation, now using the marginal percentages, is $\$ 1,683+$ $[(\$ 4,600-\$ 4,245) \times 0.1247]=\$ 1,683+\$ 44$ for a total obligation of $\$ 1,727$.

Table 4. An Example Demonstrating the Calculation of Marginal Percentages

| Monthly Net <br> Income, <br> Midpoint | Expenditures <br> on Children <br> as \% of Net <br> Income | Obligation <br> at the Net <br> Income <br> Midpoint | Difference <br> in <br> Obligation | Difference in <br> Net Income <br> Midpoint | Marginal <br> Percentage |
| :---: | :---: | :---: | :---: | :---: | :---: |
| $\$ 4,245$ | $39.64 \%$ | $\$ 1,683$ | $\$ 55$ | $\$ 447$ | $17.55 \%$ |
| $\$ 4,692$ | $37.05 \%$ | $\$ 1,738$ |  |  |  |

III. Build the Schedule of Basic Support Obligations based on Gross Incomes

Since Louisiana's Schedule of Basic Support Obligations is based on gross income, a method for converting gross to net income must be derived. Following the examples of other states, a general approach for computing the relationship between gross and net incomes is adopted. However, any general approach requires assumptions about how to treat earned income and how to relate net income to gross income.
A. Assumptions

The following assumptions are used to build the relationship between net income and gross income in the Schedule of Basic Child Support Obligations:
> All income is treated as earned income subject to taxes;
$>$ All income is earned by the non-domiciliary parent (tax rates for a single person are used); and
> Only federal taxes, state taxes, and FICA (Social Security and Medicare) taxes are deducted.
B. Methodologies
$>$ Federal taxes are deducted based on the employer schedule with the use of two withholding allowances, which simulates the effect of one standard deduction and one exemption allowed when filing personal income tax returns.
> Income tax from 2019 are applied. For 2019 tax rates see IRS Publication 15 (Circular E), Employer's Tax Guide.
> FICA tax rates from 2019 are applied.
> State income taxes are deducted using the Louisiana Withholding tables and instructions for employers with the same assumptions.

The assumption that all income is earned and is taxed at the rate of a single taxpayer with no dependents is the most common assumption used among states. Accounting for the income of two parents and/or additional exemptions for children would reduce total income taxes and thus increase net income. The end result would be higher support obligations in the Schedule.
C. Relationship between Net Incomes in Gross Incomes in the Obligation Schedule

The obligation schedule determines obligations based on net incomes. Federal, state, and FICA taxes are used to determine the gross incomes that are needed to earn the net incomes. Effectively, Louisiana's Schedule of Basic Child Support Obligations has a hidden column for net income, since a) the net income is derived from the gross incomes incremented by $\$ 50$ as shown in the Schedule using the tax assumptions and methodologies described in the previous two paragraphs; and b) the net incomes are used to determine the obligations across all incomes and number of children. The Schedule of Basic Support Obligations in the Appendix includes a column for net income to demonstrate the relationship between gross and net incomes.
D. Changes Since 2016
$>$ Federal income taxes: The federal government signed into law the Tax Cuts and Jobs Act on December 22, 2017, and most of the changes introduced by the bill went into effect on January 1, 2018. This Act changed the individual income tax rates that are used to determine the gross incomes associated with the net incomes used to determine the obligation schedule.
> FICA taxes: The Social Security tax rate remains at $6.2 \%$, but the wage base limit increased from $\$ 106,800$ in 2014 to $\$ 132,900$ in 2019. This means that for individuals who have a gross income greater than $\$ 132,900$ in 2019, they only pay $6.2 \%$ of $\$ 132,900$. Thus, Social Security contributions are capped at $\$ 686.65$ per month in 2019. The Medicare tax rate remains at $1.45 \%$ and there is still no upper limit to the amount contributed in Medicare taxes. However, an additional Medicare tax is now in effect and applied to the incomes used to generate the 2020 obligation schedule. An employer is required to withhold $0.9 \%$ of additional Medicare tax from annual gross wages in excess of $\$ 200,000$.
> State income taxes: In response to the Tax Cuts and Jobs Act, Louisiana's Department of Revenue used emergency provisions of R.S. 49:953(B) to update the employers withholding tables, to be effective no later than February 16, 2018. The updated withholding tables remain in effect in Louisiana.

## IV. Incorporate a Self-Support Reserve

The final step in the creation of Louisiana's Basic Child Support Obligations is to adjust the obligations for low-income obligors to ensure that the net income available after payment does not fall below a minimum threshold. This threshold is a self-support reserve designed to allow the obligor to maintain a minimum standard of living. In 2016 the Committee decided to incorporate a self-support reserve into the updated Schedule that represents seventy-five percent of the federal poverty level. The self-support reserves has increase from $\$ 729.38$ in 2014 to $\$ 780.62$ in 2019. The updated Schedule assumes that the minimum order remains at $\$ 100$ per month.

In the Schedule the support obligations for all net incomes below $\$ 780.62$ is zero. Given the $\$ 50$ increments in gross income in the Schedules, obligations are set at zero for all gross incomes of $\$ 800$ and below.

For gross incomes immediately above $\$ 800$, a method is used to gradually increase the obligations so that the marginal tax rate on additional income earned by the obligor is less than $100 \%$. Specifically, the following steps are taken:

1. An initial support obligation is computed using net income and the support proportions.
2. A second obligation is computed using the self-support reserve.
a) If net income is below $\$ 780.62$, the obligation is zero.
b) If net income is above $\$ 780.62$, and the difference between net income and $\$ 780.62$ is less than $\$ 100$, the obligation is set to the minimum of $\$ 100$.
c) If net income is above $\$ 780.62$ and the difference between net income and $\$ 780.62$ is less than the obligation determined in 1., the obligation is equal to the difference in (net income - $\$ 780.62$ ) multiplied by 0.90 for one child, 0.91 for two children, 0.92 for three children, 0.93 for four children, 0.94 for five children, or 0.95 for six children.
3. Compare the second obligation to the first and adopt the lower obligation in the Schedule.

The steps described in 2. c) are designed to a) ensure the support obligation increases slightly as the number of children due support increases and b) ensure the marginal tax rate on additional earnings is less than 100 percent so that there is an incentive to increase earnings at these lower income levels.

For example, consider an obligor who owes support for two children and currently earns the state minimum wage of $\$ 7.25$ an hour per 40 -hour work week, resulting in a gross income of approximately $\$ 1,250$ and a net income of $\$ 1,109.54$. Without incorporating a self-support reserve, this individual would owe $\$ 374$ per month. With a self-support reserve, the difference between the obligor's net income and the minimum threshold of $\$ 780.62$ is $\$ 328.92$, which is less than the $\$ 374$ owed without a self-support reserve. After the self-support reserve is incorporated, the obligor's obligation for the two children is ( $\$ 1,109.54-\$ 780.62$ ) x 0.91 equaling $\$ 299$ in the Schedule. Since the federal poverty levels in the U.S. increase over time, the obligations for the lowest incomes will decrease. In the updated Schedule of Basic Support Obligations shown in the Appendix, the obligations that are impacted by the self-support reserve are shown with a blue background. These particular obligations would be higher if the self-support reserve was not incorporated.

## V. Summary of Key Assumptions

The development of the Schedule of Basic Child Support Obligations requires many economic decisions and assumptions that have been documented in the above sections. In this section the key assumptions and design methodologies are highlighted.
A. Obligations in the Schedule are based on net income, not gross income.

The child support obligations shown in the updated Schedule in the Appendix are based on an obligor's net income. Net incomes are derived from the gross income amount shown in the schedule based on tax information on federal, state, and FICA taxes for 2019. Although the obligations are calculated based on net income, the benefit of using gross income in the Schedule is that the child support obligation does not need to be changed when the obligor's gross income remains the same, but there is a change in the obligor's dependents, exemptions, or other factors that influence their taxes owed.
B. Tax Assumptions.

1) The Schedule presumes that the noncustodial parent does not claim the tax deduction for the child(ren) due support. The custodial parent is entitled to claim the tax exemption(s) for any divorce after 1984, unless the custodial parents signs over the exemption(s) to the noncustodial parent each year.
2) The gross to net income conversion assumes that the obligor claims one exemption for filing and two for withholding, as well as the standard deduction.
3) All income of both parents is taxable.

These assumptions will most likely overstate the taxes owed and underestimate the net income resulting from gross income for all levels of gross income. The result is that basic support obligations would likely to be higher if the actual tax situations of households were accommodated.
C. A self-support reserve of $75 \%$ of the federal poverty level is incorporated into the Schedule.

A self-support reserve is included to allow the obligor parent sufficient net income, after payment of child support, to at least live at a subsistence level. The reserve is based on $75 \%$ of the 2019 federal poverty level for one person, which is $\$ 780.62$ per month. So that additional earnings are not discouraged, the percent of additional earnings paid by the obligor for child support is 0.90 for one child up to 0.95 for six children (with increments of 0.01 for each additional child).
D. Adjustments for parents with more than three children.

Dr. Beton's estimates of child-rearing expenditures are only computed for families with one, two, or three children. Estimates were not reported for families with four or more children because the sample size was too small to provide reliable estimates. For parents with more than three children, the child-rearing estimates are based on the child-rearing estimates for three children and multipliers recommended by the Panel on Poverty and Family Assistance, a panel assembled by the National Research Council. For more technical details please see section II. G.
E. The Schedule does not include expenditures on child care, ordinary medical expenses, and children's share of health insurance expenses.

The Consumer Expenditure Survey, the data source used to construct estimates of childrearing expenditures, contains detailed information on many types of household expenditures (for a detailed list see Section III. B of the 2016 Quadrennial Report). Child care expenses should not be included in Louisiana's Schedule of Basic Child Support Obligations because they are added to support obligations on a case-by-case basis. Therefore, the average expenditures on child care (as a percent of total expenditures) are subtracted from the average expenditures on children (as a percent of total expenditures), where the average is the average for all parents fitting in a particular net income range. Also excluded from the estimates of child-rearing expenditures are medical expenses up to $\$ 250$ per individual and the children's share of health insurance costs.
F. Obligations are based on Expenditures on Children in intact households

To determine expenditures on children Dr. Betson compared the total expenditures of intact households with two parents and at least one child to the total expenditures of other households that are a) equally well-off and b) have a childless-married couple of childbearing age. The two intact households, one with children and one without, are assumed to be equally well off if they spend approximately the same amount on adult clothing, after controlling for many variables using econometric techniques. ${ }^{102}$ Since the Schedule is based on expenditures for children in intact households, visitation costs are not considered.
G. Adjustments are made for changes in the cost of living

Dr. Betson provided his estimates of child-rearing expenditures, as well as other data, as an average for each of twenty-one net income brackets (for example, one income bracket is net incomes from $\$ 15,001-\$ 20,000$ ). For the purposes of developing the updated Schedule shown in the Appendix, the minimum and maximum values of each net income bracket are adjusted for changes in the cost of living. First, as the minimum and maximum values of all net income brackets are in 2012 dollars, these are adjusted for changes in the cost of living between 2012 and 2019.
Second, since Dr. Betson's estimates are based on national data and the average cost of living for the nation is higher than that for Louisiana, another adjustment is made to the minimum and maximum values for each net income bracket to adjust for the lower cost of living in Louisiana.

## VI. A Comparison of the Existing and Proposed Schedule

In this section differences between the existing and proposed Louisiana Schedule of Basic Child Support Obligations will be illustrated and discussed. Both the proposed and updated schedule are based on the Income Shares model, which relies on the philosophy that the child(ren) of separated parents should receive the same proportion of parental income would have been received if the parents lived together. The exact obligations in both the current and proposed Schedule can be found in the Schedule in the Appendix. This Schedule also shows the percentage change in the obligation that would occur, for each gross income, if the new Schedule was implemented.

## A. Source of Estimates on Child-Rearing Expenditures

Both the 2016 and the proposed 2020 schedules are based on Dr. Betson's estimates of child-rearing expenditures using data from the Consumer Expenditure Survey for 2004 to 2009. However, the data are summarized over different income brackets in 2019: in 2019 there are 21 income brackets and income is measured in 2012 dollars, whereas in 2016 there are 19 income brackets and income is measured in 2010 dollars.
B. Adjustments for Changes in the Cost of Living Over Time

The income brackets in Table 1 are adjusted for increases in the cost of living between 2012 and 2019. For the 2016 schedule, the income brackets were adjusted to reflect the

[^16]cost of living in 2014. These updates are calculated using data on the Consumer Price Index, which is developed by the Bureau of Labor Statistics.
C. Adjustments for Louisiana's lower incomes and cost of living relative to the national average

Dr. Betson's estimates of child-rearing expenditures are presented as averages for a set of net income ranges for families across the country. For example, for parents with net incomes between $\$ 15,001$ and $\$ 20,000$ (in 2012 dollars) and three children, the average of expenditures on children as a percent of net income is $41.83 \%$. This is calculated by finding expenditures on all children as a percent of net income for all families who have three children and a net income between $\$ 15,001$ and $\$ 20,000$, and taking the average.

Since incomes and the cost of living are lower in Louisiana than the national average, the net incomes ranges provided by Dr. Betson are adjusted for differences in the cost of living between the U.S. and Southern states, which includes Louisiana. These adjustments are made using data on the Consumer Price Index for the U.S. and for the southern region of the U.S. (which includes Louisiana).
D. Gross Incomes and Net Incomes

The proposed schedule converts the gross incomes shown in the schedule to net incomes, which are used to determine child support obligations. This conversion was completed based on federal, state, and FICA tax information such as rates and withholding formulas, for 2019. Federal and state tax rates have changed since 2014. In addition, the Social Security maximum contribution has increased, and an additional Medicare tax is now applied.

## E. Self-Support Reserve

This schedule continues to use a self-support reserve equivalent to $75 \%$ of the federal poverty level, as implemented in the 2016 schedule. However, the federal poverty level for a single individual increased from $\$ 11,670$ in 2014 to $\$ 12,490$ in 2019, increasing the self-support reserve from $\$ 729.38$ to $\$ 780.62$. This reserve is incorporated to allow the obligor to retain enough income to maintain a subsistence level of living. If net income is below $\$ 780.62$ then the obligation is calculated to be zero. However, Louisiana requires a minimum order of $\$ 100$. For net incomes above $\$ 780.62$, the obligations are slowly increased.
In the updated Schedule of Basic Support Obligations shown in the Appendix, the obligations that are impacted by the self-support reserve are shown with a blue background. In all cases, the obligations affected by the updated self-support reserve decrease. For example, if combined adjusted gross income is $\$ 1,350$ and there are three children, the self-support reserve in 2014 caused the obligation to be $\$ 408$, but the higher self-support reserve in 2019 results in an obligation of $\$ 375$.
F. Summary Statistics on the Difference in Obligations

Table 5 below shows the differences in obligation amounts, on average, between the existing and updated schedule for different income ranges. The averages for the lowest income categories were strongly influenced by the lower obligations caused by the
increase in the self-support reserve, as described above. For the highest incomes, the obligations were strongly influenced by the additional Medicare tax and the change in tax rates. For example, a CAGI of $\$ 30,000$ resulted in net income of $\$ 19,254$ in 2014 but net income of $\$ 17,904$ in 2019, causing the obligation to decrease $7.3 \%$.

Table 5. Summary Statistics on the Percentage Change in Obligations
Mean Percentage Change

|  | Mean Percentage Change |  |  |  |
| :--- | :---: | :---: | :---: | :---: |
|  | 1 Child | 2 Children | 3 Children | 4 Children |
| Monthly Combined <br> Adjusted Gross Incomes |  |  |  |  |
| $\$ 950-\$ 1,150$ | $-11.5 \%$ | $-15.5 \%$ | $-15.6 \%$ | $-15.7 \%$ |
| $\$ 1,200-\$ 1,650$ | $1.5 \%$ | $-1.8 \%$ | $-5.3 \%$ | $-7.3 \%$ |
| $\$ 1,700-\$ 4,000$ | $2.3 \%$ | $2.4 \%$ | $2.4 \%$ | $2.4 \%$ |
| $\$ 4,050-\$ 8,000$ | $4.7 \%$ | $4.8 \%$ | $4.8 \%$ | $4.8 \%$ |
| $\$ 8,050-\$ 16,000$ | $5.3 \%$ | $5.2 \%$ | $5.2 \%$ | $5.2 \%$ |
| $\$ 16,050-\$ 20,000$ | $3.6 \%$ | $4.0 \%$ | $4.2 \%$ | $4.2 \%$ |
| $\$ 20,050-\$ 40,000$ | $-6.7 \%$ | $-6.7 \%$ | $-6.6 \%$ | $-6.6 \%$ |

## A. Graphical Comparisons of Obligations

The most straightforward approach to comparing the obligations in the current and proposed schedules is to graph the amount for each monthly income level. Figures $1-3$ below show a comparison for one, two, and three children, respectively. For Figures 1a, 2 a , and 3a, the gross monthly income is measured on the horizontal axis and the obligation amount is measured on the vertical axis. For Figures $1 \mathrm{~b}, 2 \mathrm{~b}$, and 3 b , the obligation as a percent of net income is measured on the vertical axis and net incomes are measured on the horizontal axis. As seen in these figures, the obligations as a percent of net income are very consistent between the existing (2016) and the updated (2020) schedules. The inflation rates and changes in the tax rates changed the gross income that must be earned in order to obtain a given net income, causing greater differences between the schedules when comparing them across gross incomes (in Figure a).
VII. Summary

This Committee thoroughly reviewed various sources of recent data on child-rearing expenditures, various methods for adjusting national data to be more appropriate for Louisiana's cost of living, and the appropriate self-support reserve to include in the updated Schedule of Basic Child Support Obligations for the State of Louisiana. The most significant updates are to a) use regional data on the Consumer Price Index, which is administered by the Bureau of Labor Statistics, to adjust for inflation over time and to adjust national childrearing estimates to Louisiana's lower cost of living; b) to update the tax information used to calculate gross incomes from net incomes; and c) to incorporate a self-support reserve based on $75 \%$ of the 2019 poverty level (the current Schedule includes a self-support reserve based on the $75 \%$ of the Federal Poverty level from 2014).

| Comparison of Existing to Updated Schedule with Self-Support Reserve Based on 75\% of Poverty Level |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |

2020 Regular Session
BILL NO.
BY

Prefiled pursuant to Article III, Section 2(A)(4)(b)(i) of the Constitution of Louisiana.
CHILDREN/SUPPORT: Provides for the schedule of basic child support obligations

AN ACT
To amend and reenact R.S. 9:315.19, relative to child support; to provide for the schedule of basic child support obligations; and to provide for related matters.

Be it enacted by the Legislature of Louisiana:
Section 1. R.S. 9:315.19 is hereby amended and reenacted to read as follows:
§315.19. Schedule for support
The schedule of support to be used for determining the basic child support obligation is as follows:

LOUISIANA CHILD SUPPORT GUIDELINE
SCHEDULE OF BASIC CHILD SUPPORT OBLIGATIONS

| COMBINED |  |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| ADJUSTED | ONE | TWO | THREE | FOUR | FIVE | SIX |
| MONTHLY GROSS | CHILD | $\begin{aligned} & \text { CHILD- } \\ & \text { REN } \end{aligned}$ | CHILD <br> REN | $\begin{aligned} & \text { CHILD- } \\ & \text { REN } \end{aligned}$ | $\begin{aligned} & \text { CHILD- } \\ & \text { REN } \end{aligned}$ | $\begin{aligned} & \text { CHILD- } \\ & \text { REN } \end{aligned}$ |
| INCOME |  | (TOTAL) | (TOTAL) | (TOTAL) | (TOTAL) | (TOTAL) |

    ${ }^{52}$ The legislature considered three bills dealing with shared custody in 2008. One bill would have required each parent to have physical custody forty eight to fifty two percent of the time. H.B. 336, 2008 Leg. (La. 2008). A second bill would have required the nondomiciliary parent to have physical custody at least forty percent of the time before the court could use Worksheet B. H.B. 771, 2008 Leg. (La. 2008).

[^6]:    ${ }^{53}$ Laura W. Morgan, Child Support Guidelines Interpretation \& Application § 7.03 (2020)
    ${ }^{54}$ Alaska R. Civ. P. 90.3(f)(1).
    ${ }^{55}$ IN ST CHILD SUPPORT Guideline 6
    56 "The court may order or the jury may find by special interrogatory a deviation from the presumptive amount of child support when special circumstances make the presumptive amount of child support excessive or inadequate due to extended parenting time as set forth in the order of visitation, the child residing with both parents equally, or visitation rights not being utilized." Ga. Code Ann. § 19-615(i)(2)(K).

    The Alabama child support guidelines do not specifically address the problem of establishing a support order in joint legal custody situations. Such a situation may be considered by the court as a reason for deviating from the guidelines in appropriate situations, particularly if physical custody is jointly shared by the parents. Shared physical custody, regardless of 'legal custodial arrangements,' is an appropriate reason for deviation .... 'Shared physical custody' refers to that situation where the physical placement is shared by the parents in such a manner as to assure the child frequent and continuing contact and time with both parents.
    AI. R. Jud. Admin. 32 (Internal citations omitted and quotation marks in original).
    57 "The trial court's allocation of the physical time for each parent should focus on substantial time rather than strict equality of time, so as to assure that the child has frequent and continuing contact with both parents, and always keeping the paramount goal of reaching a decision which is in the best interests of the child. Only if it can be shown that a fifty-fifty shared physical custody arrangement is feasible and in the best interest of the child, can such an order can be implemented. Each case will depend on the child's age, the parents' situations, and other factors relevant to that particular custody dispute." Harang v. Ponder, 2009-2182, p. 9 (La. App. 1 Cir. 3/26/10); 36 So.3d 954, 962, writ denied, 2010-0926 (La. 5/19/10); 36 So.3d 219. (Internal citations omitted). See also Martello v. Martello, 2006-0594, p. 5 (La. App. 1 Cir. 3/23/07); 960 So.2d 186, 191.

    ${ }^{65} \mathrm{ld}$.
    ${ }^{66}$ La. Rev. Stat. Ann. § 9:315.18(B)(1)(b).
    ${ }^{67}$ See generally Internal Revenue Service, Publication 9291 (May 22, 2019). See generally Internal Revenue Service, Publication 5011 (Dec. 31, 2018).
    ${ }^{68}$ Danelle J. Daugherty, Children Are Sacred: Looking Beyond Best Interests of the Child to Establish Effective Tribal-State Cooperative Child Support Advocacy Agreements in South Dakota, 47 S.D.L. Rev. 282, 311 (2002). (Footnotes omitted). "UIFSA" is the abbreviation for the Uniform Interstate Family Support Act. See La. Child. Code arts. 1301.1-1309.3. "FFCCSOA" stands for the Full Faith and Credit of Child Support Orders Act. See 28 U.S.C.A. § 1738B. While UIFSA is not federal law, states are required to enact UIFSA to receive certain funds under the Social Security Act. See 42 U.S.C.A. § 666(f).

    The one-order system of UIFSA can succeed only if the respective obligations of support are adjusted as the physical possession of a child changes between parents or involves a third-party caretaker. This must be accomplished in the context of modification, and not by the creation of multiple orders attempting to reflect each changing custody scenario. Obviously this issue is of concern not only to interstate and international child-support orders, but applies to intrastate orders as well.
    Unif. Interstate Family Support Act 2008 § 102 cmt. (2008). "FFCCSOA, which became effective on 20 October 1994, is extremely similar to UIFSA both in terms of structure and intent." Welsher v. Rager, 127 N.C. App. 521, 528, 491 S.E.2d 661, 665 (1997).
