1.0 Overview of Alternatives to Abortion Initiative

Unplanned pregnancy for women and their male partners necessitates the delivery of clear and accurate information about their choices in ensuring a healthy and full-term pregnancy. The Department of Social Services is soliciting proposals from qualified entities for an Alternatives to Abortion Initiative to provide intervention services to low income women who are pregnant or think they may be pregnant, their male partners and/or pregnant minors whose family is at or below 200 percent of the federal poverty level. Services include crisis intervention, counseling, mentoring, support services, and pre-natal care information, in addition to information and referrals regarding healthy childbirth, adoption, and parenting to help ensure healthy and full-term pregnancies as an alternative to abortion. The Department’s preference is a statewide delivery approach; however, proposals will be considered that provide service delivery in a minimum of six of the nine regions listed on page seven of the RFP.

There is approximately $1,500,000 in TANF funds for this initiative. The TANF funds available for this initiative will address the following TANF goals:

The contract for costs associated with operating services for the Alternatives to Abortion Initiative will fund the administrative costs through cost reimbursement and the program or service delivery costs via unit cost. Funding for this initiative is provided by Federal funds under the Temporary Assistance for Needy Families. In addition to submitting a budget summary and detailed budget, proposers must justify their unit costs by submitting calculations of all expenditures on which the unit cost is derived. Successful proposers may be required to travel to Baton Rouge for negotiation of contract at their own expense.

All proposals will become public record once the evaluations are completed and an award is made. Any technical data, financial information, overhead rates, or trade secrets protected from disclosure under LA R.S. 39:1490 and LAC 34:V:130, and designated as such in the proposal, shall be kept confidential as required by law. Selection or rejection of a proposal does not affect this right.

DSS will not furnish resources or materials to contractors, either during the initial stages or during contract performance itself, except as expressly provided herein.

A non-mandatory proposer’s conference is scheduled on May 26, 2009 from 9:30am until 11:00am at the following location: 627 North 4th Street, Room 129, Baton Rouge, LA 70802.
2.0 General Information and Program Guidance

2.1 Purpose of the RFP

The Alternatives to Abortion Initiative is established to provide a system of pregnancy and parenting support to low-income women who are pregnant or think they may be pregnant, their male partners and/or pregnant minors whose family’s income is at or below 200 percent of the federal poverty level. The program primarily provides information and counseling that promotes healthy childbirth and assists pregnant women in their decision regarding adoption or parenting. Other support includes information, education and referrals for other services for the needs of the women and newborn. The information and education provided can include topics regarding prenatal care, childbirth, adoption, parenting and the use of abstinence to avoid unplanned and out-of-wedlock pregnancies. All of these program services are provided free to women from the moment they are pregnant through 12 months after the birth of their child.

The Department of Social Services is seeking proposals from qualified entities to administer an Alternatives to Abortion Initiative. Programs being solicited under this initiative should address the TANF goals - to provide assistance to needy families so children may be cared for in their own homes or in the homes of relatives; to encourage the formation and maintenance of two-parent families.

Copies of the IRS determination of 501(c) status and bylaws must be included in the offer.

Entities who perform or refer for abortions are not eligible for funding directly or through a subcontractor.

The Department's preference is a statewide delivery approach; however, proposals will be considered that provide service delivery in a minimum of six of the nine regions listed on page 7 of the RFP.

In accordance with the Louisiana Administrative Code at Title 34, Part V, §136 to make a determination of responsibility with respect to each proposer, the proposer must meet the following standards as they relate to this procurement:

2.4 Performance Measures

Services should be developed to achieve the following OUTCOMES:

- Improved health and well-being of women experiencing unplanned pregnancy
- Increased number of healthy full-term unplanned pregnancies

Proposals must include year-end program participation targets for each service delivery program component. This year-end target should be a projection of monthly targets to demonstrate how the year-end outcomes and goals will be met. If 80% of the monthly target for program participation, as set in the contract is not achieved, a performance enhancement plan will be required. If the performance enhancement plan is inadequate, the contractor is unresponsive, or if performance does not improve after performance enhancement plan implementation, contract termination will be considered.

Monthly performance measures shall be projected for each component.

Recommended examples of performance indicators for this initiative are listed below. In addition to addressing these performance indicators, proposers may develop other measures specific to their unique services.

Performance Indicator Examples

- Number of clients receiving support services to address basic needs
- Number of clients engaged in parenting education
- Number of clients engaged in pre-natal care
- % of clients who demonstrate an increased understanding of the effects of health-related behaviors, as evidenced by pre and post tests
- 50% increase of clients who have full-term pregnancies
- 80% increase of clients engaged in ongoing monthly case management

2.5 Reporting Requirement

The selected contractor will be required to report monthly performance data via a monitoring tool established by the Department of Social Services.

2.6 Monitoring/Evaluation of TANF Services

All contracts awarded through this RFP must grant to the State of Louisiana, through the Department of Social Services, the Office of the Legislative Auditor, Inspector General's Office, Federal Government and/or other such officially designated body the right to inspect and review all books and records pertaining to services rendered under the contract. The
contractor must cooperate with any monitoring/evaluation site visits or requests for information from the above-mentioned entities.

2.7 Type/Period of Contract

Funding for this initiative is provided by Federal funds under the Temporary Assistance to Needy Families Fund. Under no circumstances will the contractor be reimbursed in excess of the amount specified in the proposal. Services proposed should be performed unless excused in writing by the Department and any cost overruns are solely at the expense of the contractor. The contract term extends from July 1, 2009 until June 30, 2010. At the end of the contract term, the Office of Family Support reserves the right to renew the contract for up to an additional 24 months, if funding is available and performance is acceptable based on reasonable and ongoing progress and satisfactory management of the project.

After an entity has been notified of its selection to receive a contract, the entity shall enter into a performance-based contract for the services outlined in the proposal and may provide funding to subcontractors who will perform the service delivery. Contractors will receive payment for services rendered according to the submitted budget.

2.8 Billing

**Administrative costs** will be paid on a cost reimbursement basis. Billing for expenses must conform to practices and procedures set forth in the Social Services Procurement Code.

**Program costs** will be paid on a unit-cost reimbursement basis with the submittal of verification and documentation mandated by the Department of Social Services and State and Federal regulations.

2.9 Ownership of Equipment and Materials (cost reimbursement only)

Administrative cost will be paid on a cost reimbursement basis, therefore all equipment purchased as an administrative cost with funds awarded under the contract shall vest in the Contractor upon acquisition. When such equipment or capital assets is (1) no longer used in the furtherance of this agreement, or (2) used for a purpose not authorized by this agreement, or (3) upon termination of this contract, the Contractor may either retain the equipment or other capital assets and pay to the State that portion of the item’s fair market value proportionate to the Federal funds used for the acquisition of the item or tender the equipment or capital assets to the State. The Contractor shall either return or purchase the equipment or other capital assets within thirty days of the occurrence of any of the above noted conditions. (Such equipment shall include, but not be limited to computers, printers, copy machines, office furniture, unused supplies etc.). All records, reports, files, data, software and any other materials or information related to this contract or purchased with funds awarded under it may upon completion or termination of the contract become the property of the State of Louisiana and be delivered upon demand to the State or its designee in the manner in which the reports, files, etc. are kept in the ordinary course of business.

TANF Funded Alternatives to Abortion Program
Clarification on Administrative and Allowable Costs

As a general rule, administrative costs for TANF-funded services should be no more than 10 percent of an entity's total allocation. Agencies who receive TANF funding shall ensure that any contractors adhere to these specifications. The examples below should help illustrate the types of cost allocations that would generally be considered to be administrative or non-administrative costs and identified costs that are would not be considered allowable even if otherwise related to service delivery.

The cost of salaries and related benefits should be calculated only for the percentage of time personnel works on TANF-funded activities. For example, a project director may be employed full time, but only 4 hours per week is allocated for TANF-funded activities. Only that portion of salary and benefits should be considered as an allowable cost, not the entire annual salary. Recipient agencies shall also ensure that any building costs related to program operation charge only the percentage of time that the facility is utilized for operations related to a TANF activity. For example, a program may receive funding from multiple sources, only the amount of time the building is used to provide TANF services should be considered a TANF expense. TANF shall not be used to subsidize building operations for other services.

The following are guidelines as to what is considered an administrative cost:

- General administration or coordination of program, including accounting and payroll functions;
- Salaries and indirect costs associated with performing administrative functions;
- Supplies, equipment, travel, postage, utilities and office space related to the administration of a program;
- Activities related to eligibility determinations;
- Preparation of program plan, budget and schedules; and
- Program monitoring and audits of service functions.

The following are guidelines as to what is considered a non-administrative cost:

- Direct cost of providing program services including client activities, assessment, case management, etc.;
- Salaries and indirect costs associated with performing services functions;
- Supplies, equipment, travel, postage, utilities and office space related to the performing of services functions;
- Evaluations of service functions;
- Technology/management information systems (including data tracking for performance) not related to payroll, personnel or other administrative functions.
The following are not generally considered allowable costs under TANF, even if they are related to program operations:

- Purchase of vehicles;
- Renovation, construction or purchase (including payment of a mortgage) of a building used for program operation;
- Payment of bad debts, or interest payments as a result of credit agreements;
- Medical services;
- Payment of stipends to program participants without prior authorization from DSS;
- Payment of on-going basic needs (cash, food or housing) beyond four months;
- Services provided to elderly adults without minor children and single adults without children;
- Payment of basic needs (housing, beds, etc.) for minors and adults in secure facilities;
- Payment of equipment costs that exceed or are disproportionate in relation to the cost of service delivery;
- Purchase of alcohol; and
- Services/materials determined to be inappropriate in their relation to program delivery.
