1.0 GENERAL INFORMATION

1.1 Purpose
This Request for Proposals (RFP) is issued by the Department of Children and Family Services (herein referred to as the State) for the purpose of soliciting proposals from qualified Contractors interested in administering an Abortion Alternatives Program. The Alternatives to Abortion Initiative is established to provide a system of pregnancy and parenting support to low-income women who are pregnant or think they may be pregnant, their male partners and/or pregnant minors whose family’s income is at or below 200 percent of the federal poverty level. The program primarily provides information and counseling that promotes healthy childbirth and assists pregnant women in their decision regarding adoption or parenting. Other support includes information, education and referrals for other services for the needs of the women and newborn. The information and education provided can include topics regarding prenatal care, childbirth, adoption, parenting and the use of abstinence to avoid unplanned and out-of-wedlock pregnancies. All of these program services are provided free to women from the moment they are pregnant through the birth of their child.

The proposer may submit a proposal specific to a particular region, a number of regions or a statewide delivery approach. A table of the nine regions is listed on Attachment VI of the RFP.

Programs being solicited under this initiative should address the TANF goals, which are to provide assistance to needy families so children may be cared for in their own homes or in the homes of relatives and to encourage the formation and maintenance of two-parent families.

There is approximately $1,283,334 in TANF funds available/allocated for this initiative.

1.2 Background
The Louisiana Department of Children and Family Services (DCFS) is an administrative department within the Executive Branch of State government in Louisiana. The Vision of DCFS is working to keep children safe, helping individuals and families become self-sufficient, and providing safe refuge during disasters.

DCFS Programs and Organization

DCFS is a public-funded service organization whose purpose is to administer the public assistance and welfare laws of the State and to provide high quality social programs and services to Louisiana residents at the lowest possible cost to the taxpayers. In general, services are administered statewide within a centralized organizational framework with a DCFS headquarters overseeing state offices, regional offices, district offices and parish offices.

1.3 Scope of Services
Attachment 1 (Statement of Work) details the scope of services and deliverables or desired results that the State requires of the selected Contractor(s).

Clarification on Administrative and Allowable Costs

As a general rule, administrative costs for TANF-funded services should be no more than 10 percent of an entity’s total allocation. Agencies who receive TANF funding shall ensure that any contractors adhere to these specifications. The examples below should help illustrate the types of cost allocations that would generally be considered to be administrative or non-administrative costs and identified costs that would not be considered allowable even if otherwise related to service delivery.

The cost of salaries and related benefits should be calculated only for the percentage of time personnel works on TANF-funded activities. For example, a project director may be employed full time, but only 4 hours per week is allocated for TANF-funded activities. Only that portion of salary and benefits should be considered as an allowable cost, not the entire annual salary. Recipient agencies shall also ensure that any building costs related to program operation charge only the percentage of time that the facility is utilized for operations related to a TANF activity. For example, a program may receive funding from multiple sources, only the amount of time the building is used to provide TANF services should be considered a TANF expense. TANF shall not be used to subsidize building operations for other services.

The following are guidelines as to what is considered an administrative cost:

✓ General administration or coordination of program, including accounting and payroll functions;
✓ Salaries and indirect costs associated with performing administrative functions;
✓ Supplies, equipment, travel, postage, utilities and office space related to the administration of a program;
✓ Activities related to eligibility determinations;
✓ Preparation of program plan, budget and schedules; and
✓ Program monitoring and audits of service functions.
