REQUEST FOR PROPOSAL FOR

CHAFEE FOSTER CARE INDEPENDENCE PROGRAM FOR DEPARTMENT OF CHILDREN AND FAMILY SERVICES

PART I: ADMINISTRATIVE AND GENERAL INFORMATION

(REV. 11/10/2014)

1.1 Background

This Request for Proposal (RFP) is issued by the Department of Children and Family Services, herein referred to as DCFS or “the department”. The DCFS provides for the public child welfare functions of Louisiana, delivering services through a state administered system of a central state office, nine (9) regional offices and less than (40) parish offices covering the sixty-four (64) parishes of Louisiana. A parish is a subdivision of the state similar to a county in other states. Through partnerships with the Office of Juvenile Justice (OJJ) and the federal tribes located in Louisiana, DCFS also supports the delivery of child welfare services to those populations of youth who are considered children in foster care.

Baton Rouge	East Baton Rouge, West Baton Rouge, Iberville, East Feliciana, West Feliciana, and Pointe Coupee
Covington	Livingston, St. Helena, St. Tammany, Tangipahoa, and Washington
Greater New Orleans	Orleans, Jefferson, Plaquemines and St. Bernard
Lafayette	Lafayette, Iberia, St. Martin, St. Landry, St. Mary, Acadia, Vermilion, and Evangeline
Lake Charles	Calcasieu, Beauregard, Allen, Cameron, and Jefferson Davis

The Chafee Foster Care Independence Program is a federally funded program provided by the department statewide through contract providers. The program has been provided in Louisiana since 1999. The purpose of the federal funds under which the program operates was to enable state programs to be designed and conducted, in accordance with Sections 475 and 477 of the United States Social Security Act:

- (1) to identify children who are likely to remain in foster care until 18 years of age and to help these children make the transition to self-sufficiency by providing services such as assistance in obtaining a high school diploma, career exploration, vocational training, job placement and retention, training in daily living skills, training in budgeting and financial management skills, substance abuse prevention, and preventive health activities (including smoking avoidance, nutrition education, and pregnancy prevention);
- (2) to help children who are likely to remain in foster care until 18 years of age receive the education, training, and services necessary to obtain employment;
- (3) to help children who are likely to remain in foster care until 18 years of age prepare for and enter postsecondary training and education institutions;
- (4) to provide personal and emotional support to children aging out of foster care, through mentors and the promotion of interactions with dedicated adults;

(5) to provide financial, housing, counseling, employment, education, and other appropriate support and services to former foster care recipients between 18 and 21 years of age to complement their own efforts to achieve self-sufficiency and to assure that program participants recognize and accept their personal responsibility for preparing for and then making the transition from adolescence to adulthood;

(6) to provide the services referred to in this subsection to children who, after attaining 16 years of age, have left foster care for kinship guardianship or adoption; and

(7) to ensure children who are likely to remain in foster care until 18 years of age have regular, ongoing opportunities to engage in age or developmentally-appropriate activities as defined in section 475(11) of the Social Security Act.

1.1.1 Purpose

The purpose of this Request for Proposal (RFP) is to obtain competitive proposals as allowed by Louisiana Revised Statute 39:1593 et seq. from bona fide, qualified proposers who are interested in providing Chafee Foster Care Independence Program services within Louisiana.

The Department seeks proposals from proposers capable of serving a minimum of all parishes within a particular DCFS region. It is anticipated at least one (1) proposal per DCFS region will be accepted and separate contracts developed for each DCFS region to fully serve the whole state. One proposer may submit separate proposals for separate contracts for each DCFS region a proposer is interested in serving. Acceptance of a proposal for contracted services within one DCFS region will not guarantee acceptance of a proposal by the same proposer for any other region. Each proposal submitted for each DCFS region will be independently reviewed and analyzed for the needs of that region and in comparison with all other proposals submitted for that particular region. A proposer must have or plan to have by the initiation of the contract, a physical presence of staff and an office within each DCFS region for which the proposer submits a proposal to serve. In the event proposals were not submitted for a specific DCFS region, DCFS reserves the right to negotiate a contract (based on the evaluation criteria) with one of the respondents of the RFP to cover the additional regions.

The proposal must demonstrate the following:

- Service to youth ages 14 through 26 in DCFS, OJJ or federal tribal custody; who aged out of DCFS, OJJ or federal tribal custody; or, who entered a Guardianship or Adoption arrangement out of DCFS, OJJ or federal tribal custody from foster care after age 16;
- Education and training on the basic skills necessary to live independently
 - Developmentally appropriate to each youth referred
 - Targeted to the individually assessed needs of each youth referred
 - Continuously evolving instructional experiences based on ongoing assessment of each youth's functional skill level
 - Involve experiential learning activities for the youth to practice and demonstrate skill development in each instructional area
 - Geographically and logistically convenient to each youth referred as well as the caretakers of the youth.

All proposed programs shall be based on Positive Youth Development principles, have a clear program philosophy, be strengths-focused in approach, have an experiential learning methodology for youth knowledge development and demonstrate evidence of capacity to build youth independence. The proposed programs must outline a progression of skill development for youth which demonstrates an ongoing learning relationship and assessment of progress with each youth from the point of referral of the youth by DCFS, OJJ or a federal tribe to the service provider and continuing throughout the course of the youth's stay in foster care, which should include plans for transition of service delivery and youth records from one provider to another when a child moves into a different DCFS region. Additionally, the method the proposer develops to meet the requirements of this program must be described in the proposal in such a way the work plan regarding the following is clear: the ongoing plan of the proposer in developing DCFS, OJJ and tribal staff knowledge in more effectively working with youth and young adults ages 14 – 26; the marketing plan of the provider for recruitment of youth through regular contact with DCFS, OJJ and tribal social services staff within the service region; the strategy for engaging community partners in supporting service delivery to youth and young adults in the population served; and, the method for supporting continued DCFS, OJJ and tribal connections to youth as the youth age out of foster care to

track youth success and for providing continued case management support directly to the youth after foster care exit.

1.1.2 Goals and Objectives

The department hopes to identify proposers with whom a partnership can be developed to insure support for the youth's case plan with DCFS and engagement of qualified professionals in case planning activities with the youth, DCFS caseworker, child's family and child's caretaker for as long as the youth remains in foster care. DCFS would like to achieve a shared commitment to services for youth which are consistent with the youth's needs and choices for transitioning to adulthood, which are provided in a manner that is receptive to adaptations to learning activities to meet the behavioral, emotional, medical, learning, intellectual or developmental challenges being experienced by an individual youth.

DCFS is interested in collaboration with a proposer that demonstrates a strong connection with local community partners, including family-run and faith-based organizations, federal tribes and youth support groups to ensure continuity of services and appropriate supports as the youth served assume self-responsibility.

The objective of the program is to provide services to youth residing in Louisiana in foster care through either DCFS, another state child welfare system, the juvenile justice system of Louisiana, or a federal tribe, ages 14 up to age 18. The population to be served also includes youth residing in Louisiana age 18 up to 26 who aged out of foster care upon achieving the age of majority through either DCFS, another state child welfare system, the juvenile justice system of Louisiana, or a federal tribe, and youth residing in Louisiana who entered a Guardianship or Adoption from foster care after age 16 prior to age 18. Each month approximately 45-60 youth in foster care, statewide reach the ages of 14-17. All of these youth are within the age range to be eligible to begin receiving independent living services. Each month, additional youth will age into the eligible population. Approximate estimates in past years of youth aging into the eligible population within a three month period have been: Orleans - 16; Baton Rouge - 4; Covington - 35; Thibodaux - 12; Lafayette - 22; Lake Charles - 10; Alexandria - 17; Shreveport - 23; and, Monroe - 23.

2.6 Scope of Work Elements

2.6.1 Functional Requirements

The purpose of this RFP is to obtain competitive proposals as allowed by Louisiana Revised Statute 39:1593 et seq. from qualified Proposers interested in providing for the education and training of youth transitioning from foster care into adulthood and self-sufficiency through the development of an independent living skills program. The goal of the program shall be to serve youth ages 14 through 17 in preparing for independence and to serve young adults ages 18 to 26 who have aged out of foster care to aid these youth in continued independent living skill development and/or provide the youth supportive services in successfully functioning as the youth transition into adulthood and assume personal responsibility for their daily care. In addition to youth who age out of foster care at the age of 18, the youth served shall include youth who are adopted or enter a guardianship arrangement from foster care between the ages of 16 and 17.

2.6.2 Technical Requirements

NOT APPLICABLE TO THIS CONTRACT.

2.6.3 Project Requirements

It is required that contractors have a physical presence including an office in each region served. Any rental costs must be included in the proposed budget. Each region served must have on-site staff available full-time providing services in that region. There must be an individual with the responsibility of over-sight of the program and in-office contact available for each region Monday through Friday during all regular working hours (8:00 AM to 4:30 PM), excluding Louisiana, state government declared holidays.

Program and services must be operational during most DCFS business hours, Monday – Friday from 8:00 AM to 4:30 PM, at times when youth are available, and contractors may only observe holidays that DCFS observes in accordance with state government declaration. The program must also be accessible at all

times and may have an answering service twenty-four (24) hours a day, seven days a week, to respond to any emergency need or call of youth.

The following is an example of the minimum expected functional delivery of Transitional Services that contractors are required to provide as part of their service delivery plan:

Both on and off site experiential learning opportunities for youth to learn and practice independent living skills;

Any classroom instruction to include group work, experiential learning, some youth led instruction and planning, group work that involves both youth and their caretakers;

Providing and facilitating opportunities for youth mentoring and teaching to others in the program in the areas where a youth has scored high with sufficient preparation and planning with the youth to develop their skill level prior to the use of the youth in this manner. For example, if a youth scores high in the area of social skills they might be guided in assisting in mentoring another youth or leading a group regarding social skills while allowing this to count toward their own thirty-two (32) hours of annual IL skill instruction;

Quarterly in-home planning sessions with the youth and placement provider/caretaker to practice skill development in the home, review in-home opportunities, and plan for on-going in-home skill development;

Example formats for Transitional Services program might include:

- During one month youth might have one off site experiential learning opportunity for youth and one meeting group activity where caretakers and youth are present. During this group activity, time would be spent with youth in one group (focused on skill development) and caretakers in another group (focused on review of skill development opportunity, positive support experiences, vision boards, etc.) separately half of the time and then for the other half of the time bringing youth and caretakers together to participate in planning for on-going work, in-home skill development, and problem resolution).
- Program might be comprised of individual skill-based mentoring around independent living skill development that includes a minimum amount of hours spent with the youth per month for skill development and a minimum amount of time spent with the youth and the placement provider/caretaker per quarter for review of in-home skill development opportunities and to plan for on-going in-home skill development.
- Pre-transitional services program using vision boards to assist youth in learning how to make a goal and plan action steps of how to reach a set goal.

The continuation of this contract is contingent upon the appropriation of funds by the legislature to fulfill the requirements of the contract by the legislature. If the legislature fails to appropriate sufficient monies to provide for the continuation of the contract, or if such appropriation is reduced by the veto of the Governor or by any means provided in the appropriations act of Title 39 of the Louisiana Revised Statutes of 1950 to prevent the total appropriation for the year from

exceeding revenues for that year, or for any other lawful purpose, and the effect of such reduction is to provide insufficient monies for the continuation of the contract, the contract shall terminate on the date of the beginning of the first fiscal year for which funds have not been appropriated.

5 INDEMNIFICATION AND LIMITATION OF LIABILITY

Neither party shall be liable for any delay or failure in performance beyond its control resulting from acts of God or force majeure. The parties shall use reasonable efforts to eliminate or minimize the effect of such events upon performance of their respective duties under Contract.

The Contractor shall not be obligated to indemnify that portion of a claim or dispute based upon: i) Authorized User's unauthorized modification or alteration of a Product, Material or Service; ii) Authorized User's use of the Product in combination with other products not furnished by Contractor; iii) Authorized User's use in other than the specified operating conditions and environment.

In addition to the foregoing, if the use of any item(s) or part(s) thereof shall be enjoined for any reason or if Contractor believes that it may be enjoined, Contractor shall have the right, at its own expense and sole discretion as the Authorized User's exclusive remedy to take action in the following order of precedence: (i) to procure for the State the right to continue using such item(s) or part (s) thereof, as applicable; (ii) to modify the component so that it becomes non-infringing equipment of at least equal quality and performance; or (iii) to replace said item(s) or part(s) thereof, as applicable, with non-infringing components of at least equal quality and performance, or (iv) if none of the foregoing is commercially reasonable, then provide monetary compensation to the State up to the dollar amount of the Contract.

For all other claims against the Contractor where liability is not otherwise set forth in the Contract as being "without limitation", and regardless of the basis on which the claim is made, Contractor's liability for direct damages, shall be the greater of \$100,000, the dollar amount of the Contract, or two (2) times the charges rendered by the Contractor under the Contract. Unless otherwise specifically enumerated herein or in the work order mutually agreed between the parties, neither party shall be liable to the other for special, indirect or

consequential damages, including lost data or records (unless the Contractor is required to back-up the data or records as part of the work plan), even if the party has been advised of the possibility of such damages. Neither party shall be liable for lost profits, lost revenue or lost institutional operating savings.

The State and Authorized User may, in addition to other remedies available to them at law or equity and upon notice to the Contractor, retain such monies from amounts due Contractor, or may proceed against the performance and payment bond, if any, as may be necessary to satisfy any claim for damages, penalties, costs and the like asserted by or against them.

This provision shall not prevent the normal dissemination of factual information relative to a proposition on any election ballot or a proposition or matter having the effect of law being considered by the Louisiana Legislature or any local governing authority.

8 ASSIGNMENT

No contractor shall assign any interest in this contract by assignment, transfer, or novation, without prior written consent of the State. This provision shall not be construed to prohibit the contractor from assigning to a bank, trust company, or other financial institution any money due or to become due from approved contracts without such prior written consent. Notice of any such assignment or transfer shall be furnished promptly to the State.

9 RIGHT TO AUDIT

The State Legislative Auditor, agency, and/or federal auditors and internal auditors of the Division of Administration shall have the option to audit all accounts directly pertaining to the contract for a period of three (3) years from the date of the last payment made under this contract. The Contractor may, with prior written permission from the State, enter into subcontracts with third parties for the performance of any part of the Contractor's duties and obligations.
